

TABLE DES MATIERES

D.L. BURKHOLDER : "EXPLORATIONS IN MARTINGALE THEORY AND ITS APPLICATIONS"(*)

| | |
|-----------------------------------------------------|----|
| 1. Introduction | 3 |
| 2. Searching for the best : An example | 9 |
| 3. Differential subordination of martingales | 15 |
| 4. On the number of escapes of a martingale | 23 |
| 5. Differential subordination of harmonic functions | 27 |
| 6. Sharp probability bounds for real martingales | 30 |
| 7. On the number of escapes of a harmonic function | 34 |
| 8. A sharp exponential inequality | 35 |
| 9. A one-sided exponential inequality | 48 |
| 10. On superreflexivity | 50 |
| 11. More sharp inequalities for the square function | 56 |
| 12. On the optimal control of martingales | 58 |
| Appendix | 59 |
