Introduction	ix
The Centers of 3-Dimensional Sklyanin Algebras <i>Michael Artin, William Schelter, and John Tate</i>	1
Algebraic versus Rigid Cohomology with Logarithmic Coefficients <i>Francesco Baldassarri and Bruno Chiarellotto</i>	11
Abelian Varieties from the Rigid Analytic Viewpoint <i>Siegfried Bosch</i>	51
Witt Realization of p -Adic Barsotti-Tate Groups <i>Maurizio Candilera and Valentino Cristante</i>	65
A p -Adic Inner Product on Elliptic Modular Forms <i>Robert F. Coleman</i>	125
Hypergeometric Series and Functions as Periods of Exponential Modules <i>Bernard Dwork and François Loeser</i>	153
The General Case of S. Lang's Conjecture <i>Gerd Faltings</i>	175
Logarithmic Spaces (According to K. Kato) <i>Luc Illusie</i>	183
Perversity and Exponential Sums II: Estimates for and Inequalities among A -Numbers <i>Nicholas M. Katz</i>	205
Moduli of Abelian Varieties in Positive Characteristic <i>Frans Oort</i>	253
Index	277
