CONTENTS

Preface ix

A Survey of the Early History of the Theory of Random Mappings
B. Harris 1

On Goncharov's Works in the Field of Combinatorics
V. F. Kolchin 23

Probability Distributions in Prime Number Theory
S. W. Golomb 28

Polynomial and Polynomial-Like Allocations: Recent Developments
V. G. Mikhailov 40

Properties of Random Permutations with Constraints on the Maximum Cycle Length
A. A. Grusho 60

Stochastic Properties of Systems of Random Linear Equations over Finite Algebraic Structures
I. N. Kovalenko and A. A. Levitskaya 64

On the Number of Solutions of Systems of Pseudo-Boolean Random Equations
G. V. Balakin 71

Problems of Security in Information Processing Systems
A. F. Ronzhin 99

Decomposable Statistics Based on the Spacings and Spacing-Frequencies of Higher Orders
A. A. Ashurkov 128

On the Allocation Processes with Given Distributions of Frequency Vectors
S. I. Chechota 133

Statistical Problems Concerned with Estimation of the Composition of β-Radioactive Wastes
P. V. Chistyakov, V. P. Chistyakov, V. I. Dorogov, and V. I. Handogin 143

On Transient Phenomena for Branching Migration Processes
E. E. Dyakonova 148

Asymptotic Behaviour of Waiting Times in a Scheme of Particle Allocation
N. J. Enatskaya and E. R. Khakimullin 155

Limit Theorems for U-Statistics of Dependent Random Variables
A. B. Gortchakov 186

Limit Theorems for Decomposable Statistics of Dependent Random Variables
A. B. Gortchakov 200

Estimating Finite Stratified Populations
G. I. Ivchenko and S. A. Khonov 212

Asymptotic Expansions for Permutation Tests with Several Samples
Sh. Ismatullaev and Sh. Mirakhmedov 226

On Approximation of Weighted Sums of Random Variables with Two-Dimensional Indices
K. A. Jafarov 240

On a Lower Bound for the Isoperimetric Number of Cubic Graphs
A. V. Kostochka and L. S. Melnikov 251

A Risk Function in Global Optimization Problem
S. V. Kovalev and V. V. Mazalov 266

On an Existence Theorem for Decomposable Statistics
E. M. Kudlaev 271

The Property of Phase Transitions in Random Graphs
A. V. Lapshin 287

On Sums of Values of the Legendre Symbol over Components in a Scheme of Generation of Random Vectors
Yu. I. Maksimov 298

On the Strong Law of Large Numbers for Sums of Pairwise Independent Random Variables
A. I. Martikainen 305

On a Special Class of Functions Associated with the Complexity of String Correction Problem
S. S. Martynov 313

Operator Moments of Random Euclidean Mappings
V. M. Maximov 316

Percolation Method in a System of Numerous Particles
M. V. Menshikov and K. D. Pelikh 329

Models of ρ-Percolation
M. V. Menshikov and S. A. Zuev 337

On Estimation of the Coefficient of Asymptotic Relative Efficiency of Discrete-Analogue Algorithms to Detect Signals in a Non-Gaussian Noise
T. Yu. Morozova and A. N. Trunov 348

Random Mappings and Trees: Relations between Asymptotics of Moments of Certain Characteristics
L. R. Mutafchiev 353

On a Nonlinear Generalization of the Occupancy Problem
G. V. Proskurin 366

Weak Convergence of Certain Multiple Sums of Dependent Random Variables
I. Rakhimov 376

On Problems of Renewal System Theory for Finite Time Interval
A. A. Rogov and V. I. Tchernetskii 386

On the Generating Functions of Coloured Partitions and Limit Theorems for Sums of Indicators
M. N. Rokhlin 395

Probabilistic Methods in the Theory of Approximation of Discrete Functions
B. V. Ryazanov 403

Chernoff's Inequality for Sum of Independent Random Vectors
N. P. Salikhov 413

Some Limit Theorems in Batch Allocation Scheme with Random Levels Defined by an Allocation Scheme
M. Savchuk 428

Runs in Finite Markov Chains
L. Ya. Savelyev 437

How Often is Addition Equal to Bitwise Addition?
V. I. Sherstnev 451

Boolean Functions and Approximation of Vectors
V. M. Sidelnikov and O. V. Sipacheva 454

Limit Theorems for Random A-Permutations
A. L. Yakymiv 459
