

Preface	xi
Malcev superalgebras <i>H.Albuquerque</i>	1
The first Tits construction of Albert algebras over locally ringed spaces <i>G.Achhammer</i>	8
The identity $(x^2)^2 = \omega(x)x^3$ in baric algebras <i>R. Andrade, A. Catalan and A.Labra</i>	12
Cayley-Klein Lie algebras and their quantum universal enveloping algebras <i>A.Ballesteros, F.J.Herranz, M.A.Del Olmo and M. Santander</i>	17
On constructions of nonsolvable Lie algebras whose ideals are in chain <i>M.P.Benito</i>	24
Lie algebras graded by root systems <i>G.Benkart and E.Zelmanov</i>	31
Bernstein representations <i>J. Bernad, A.Iltjakov and C.Martínez</i>	39
On free differentials on associative algebras <i>A.Borowiec, V.K.Kharchenko and Z.Oziewicz</i>	46
On primitive Jordan Banach algebras <i>M.Cabrera, A.Moreno and A. Rodríguez Palacios</i>	54
Zel'manov's theorem for nondegenerately ultraprime Jordan-Banach algebras <i>M.Cabrera and A. Rodríguez Palacios</i>	60
Jordan H*-triple systems <i>A.Castellón, J.A.Cuenca and C.Martín</i>	66

Prime alternative triple systems	73
<i>A.Castellón and C.Martín</i>	
M-ideals of Schreier type and the Dunford-Pettis property	80
<i>J.Castillo, M.González and F.Sánchez</i>	
Spectra of elements of a nonassociative algebra	86
<i>A.Cedilnik</i>	
Ranges of elements of a nonassociative algebra	93
<i>A.Cedilnik</i>	
Coordinatization of Jordan algebras over locally ringed spaces	99
<i>J.Cleven</i>	
Sur la décomposition de Peirce	106
<i>J.C. Da Motta and A. Micali</i>	
On transitive left-symmetric algebras	114
<i>A.Elduque and H.C.Myung</i>	
Spectral study of some topological Jordan algebras	122
<i>N.El Yacoubi</i>	
Representations of reduced enveloping algebras	128
<i>R.Farnsteiner</i>	
A cohomological characterization of solvable modular Lie algebras	133
<i>J.Feldvoss</i>	
An extension of the Zel'manov-Goldie theorem	140
<i>A.Fernández and E.García</i>	
On the unitarization of highest weight representations for affine Kac-Moody algebras	147
<i>J.García and M.Lorente</i>	
Cohn's theorem for superalgebras	153
<i>C.Gómez-Ambrosi</i>	
On Bernstein algebras of n-th order	158
<i>S.González, J.C.Gutiérrez and C.Martínez</i>	

On Bernstein algebras <i>S. González and C. Martínez</i>	164
Realization of Lie algebras with polynomial vector fields <i>H. Gradl</i>	171
Les algèbres de Kac-Moody et l'homologie diédrale <i>A. Haddi</i>	176
Quadratic differential equations in graded algebras <i>N. C. Hopkins</i>	179
Projective double Lie algebras on a Lie algebra <i>T. Ikeda</i>	183
On derivation algebras of group algebras <i>T. Ikeda and N. Kawamoto</i>	188
J-diviseurs topologiques de zéro dans une algèbre de Jordan n.c. normée <i>E. Kaidi and A. Sánchez</i>	193
On Freudenthal-Kantor triple systems and generalized structurable algebras <i>N. Kamiya</i>	198
Hermitian Jordan triple systems and the automorphisms of bounded symmetric domains <i>W. Kaup</i>	204
Quadratic differential equations on graded structures <i>M. K. Kinyon</i>	215
A generalization of Novikov rings <i>E. Kleinfeld and H. F. Smith</i>	219
Automorphismes et dérivations dans les algèbres de Barker <i>B. Y. L'Moufadal</i>	223
Lattice isomorphisms of Jordan algebras over arbitrary fields <i>J. Laliena</i>	229

Multibaric algebras	235
<i>J.López-Sánchez and E.Rodríguez</i>	
The Bernstein Problem in mathematical genetics and Bernstein algebras	241
<i>Y.I.Lyubich</i>	
Les algèbres de mutation	245
<i>C.Mallol and R.Varro</i>	
Non associative graded algebras	251
<i>D.Martín and C.Martín</i>	
Tracial elements for nonassociative H^*-algebras	257
<i>J.Martínez</i>	
On lattice isomorphism of Bernstein algebras	269
<i>C.Martínez and J.A. Sánchez-Nadal</i>	
Bernstein algebras whose lattice ideals is linear	275
<i>C.Martínez and J. Setó</i>	
Local algebras	279
<i>K.McCrimmon</i>	
Applications of fox differential calculus to free Lie superalgebras	285
<i>A.A.Mikhalev and A.J.Zolotykh</i>	
On the cohomology for the Witt algebra $w(1,1)$	291
<i>D.K.Nakano</i>	
3-graded Lie algebras and Jordan pairs	296
<i>E.Neher</i>	
Super-triple systems, normal and classical Yang-Baxter equations	300
<i>S.Okubo</i>	
A conjecture on locally Novikov algebras	309
<i>J.M.Osborn</i>	
Coalgebra, cocomposition and cohomology	314
<i>Z.Oziewicz, E.Paal and J.Rózański</i>	

Minimal polynomial identities of baric algebras	323
<i>L.A.Peresi</i>	
On power associative composition algebras	330
<i>J.M.Pérez</i>	
Enumeration and classification of Albert algebras: reduced models and the invariants mod 2	334
<i>H.P.Petersson and M.L.Racine</i>	
Composition algebras over open dense subschemes of curves of genus zero	341
<i>S.Pumplün</i>	
Simple Jordan superalgebras	344
<i>M.L.Racine and E.Zel'manov</i>	
Absolute valued algebras of degree two	350
<i>A.Rodríguez Palacios</i>	
On a generalization of the Jordan inverse	357
<i>M.Roth</i>	
On geodesic loops of trans-symmetric space	361
<i>L.Sabinina</i>	
Quadratic systems, blow-up, and algebras	367
<i>A.Sagle and M.K.Kinyon</i>	
Quantization of Poisson superalgebras and speciality of Jordan Poisson superalgebras	372
<i>I.Shestakov</i>	
Duplicated algebras of algebras	379
<i>Y.Taniguchi</i>	
Introduction aux algèbres de Bernstein périodiques	384
<i>R.Varro</i>	
Randon Jordan derivations	389
<i>M.V.Velasco and A.R.Villena</i>	

Randon derivations on H^*-algebras	395
<i>A.R. Villena</i>	
Algebras of rank three	400
<i>S. Walcher</i>	
Inner product characterizations of classical Cayley-Dickson algebras	405
<i>B. Zalar</i>	
Sur les \mathbb{R}-algèbres de Jordan non commutatives, de division, de dimension 8, possédant un automorphisme ou une dérivation non triviaux	410
<i>A. Rochdi</i>
