Foreword	xi
Introduction to the Second DIMACS Challenge: Cliques, coloring, and satisfiability DAVID S. JOHNSON AND MICHAEL A. TRICK	1
Clique	
Polyhedral methods for the maximum clique problem EGON BALAS, SABASTIÁN CERIA, GÉRARD CORNUÉJOLS, AND GÁBOR PATAKI	11
Finding large cliques in arbitrary graphs by bipartite matching EGON BALAS AND WILLIAM NIEHAUS	29
An exact quadratic 0–1 algorithm for the stable set problem JEAN-MARIE BOURJOLLY, PAUL GILL, GILBERT LAPORTE, AND HÉLÈNE MERCURE	53
Camouflaging independent sets in quasi-random graphs MARK BROCKINGTON AND JOSEPH C. CULBERSON	75
Constructing cliques using restricted backtracking MARK K. GOLDBERG AND REID D. RIVENBURGH	89
A continuous based heuristic for the maximum clique problem L. E. GIBBONS, D. W. HEARN, AND P. M. PARDALOS	103
Applying the INN model to the Maximum Clique problem TAL GROSSMAN	125
Experiments with polynomial-time CLIQUE approximation algorithms on very large graphs STEVEN HOMER AND MARCUS PEINADO	147
Approximately solving Maximum Clique using neural network and related heuristics ARUN JAGOTA, LAURA SANCHIS, AND RAVIKANTH GANESAN	169

Edge projection and the maximum cardinality stable set problem CARLO MANNINO AND ANTONIO SASSANO	205
Tabu search algorithms for the maximum clique problem PATRICK SORIANO AND MICHEL GENDREAU	221
Coloring	
Exploring the k -colorable landscape with Iterated Greedy JOSEPH C. CULBERSON AND FENG LUO	245
Coloring by tabu branch and bound FRED GLOVER, MARK PARKER, AND JENNIFER RYAN	285
Experiments with parallel graph coloring heuristics and applications of graph coloring GARY LEWANDOWSKI AND ANNE CONDON	309
Distributed coloration neighborhood search CRAIG MORGENSTERN	335
An improved algorithm for exact graph coloring E. C. SEWELL	359
Satisfiability	
Random generation of test instances with controlled attributes YUICHI ASAHIRO, KAZUO IWAMA, AND EIJI MIYANO	377
A linear programming and rounding approach to max 2-sat J. CHERIYAN, W. H. CUNNINGHAM, L. TUNÇEL, AND Y. WANG	395
SAT versus UNSAT O. DUBOIS, P. ANDRE, Y. BOUFGHAD, AND J. CARLIER	415
Large plateaus and plateau search in Boolean Satisfiability problems: When to give up searching and start again STEVEN HAMPSON AND DENNIS KIBLER	437
Tabu search and a quadratic relaxation for the Satisfiability problem BRIGITTE JAUMARD, MIHNEA STAN, AND JACQUES DESROSIERS	457
Efficiency and stability of hypergraph SAT algorithms DANIELE PRETOLANI	479
A GRASP for satisfiability MAURICIO G. C. RESENDE AND THOMAS A. FEO	499
Local search strategies for satisfiability testing BART SELMAN, HENRY KAUTZ, AND BRAM COHEN	521

Simulated annealing for hard satisfiability problems WILLIAM M. SPEARS	533
Satisfiability testing with more reasoning and less guessing ALLEN VAN GELDER AND YUMI K. TSUJI	559
Comparative studies of constraint satisfaction and Davis-Putnam algorithms for maximum satisfiability problems RICHARD J. WALLACE AND EUGENE C. FREUDER	587
Combination	
Object-oriented implementation of heuristic search methods for Graph Coloring, Maximum Clique, and Satisfiability CHARLES FLEURENT AND JACQUES A. FERLAND	619
Appendix: Second DIMACS Challenge test problems MICHAEL A. TRICK	653
