

Contents

Preface	ix
Chaotic Responses in Two Degree-of-Freedom Systems with 1:2 Internal Resonances B. BANERJEE and A.K. BAJAJ	1
Robust Numerical Solution of the Fokker-Planck Equation for Second Order Dynamical Systems Under Parametric and External White Noise Excitations L.A. BERGMAN, B.F. SPENCER, JR., S.F. WOJTKIEWICZ, and E.A. JOHNSON	23
Stochastic Stability of Systems with Random Properties C. BUCHER	39
Oil Whirl and Oil Whip, Nonlinear Limit-Cycle Phenomena S. H. CRANDALL	51
A Basic Explanation of Homoclinic Intersection in the Twin-Well Duffing Oscillator E. H. DOWELL and A. L. KATZ	65
Stability of Superimplicit Numerical Methods for Stochastic Differential Equations N. HOFMANN and E. PLATEN	93
Response Statistics of Nonlinear Systems to Parametric Filtered White Noise R. A. IBRAHIM and Y-J. YOON	105
On Robustness of Some Concepts in Stability of Stochastic Differential Equations R. KHASHMINSKII	131
Prediction of Natural Frequency and Buckling Load Variability Due to Uncertainty in Material Properties by Convex Modeling Y.W. LI, I. ELISHAKOFF, J.H. STARNES, Jr., and M. SHINOZUKA	139

Some Results Related to Failure of Stochastic Structural Systems Y. K. LIN and G.Q. CAI	155
Chaotic Motion in a Rotating Body With Internal Energy Dissipation P.A. MEEHAN and S.F. ASOKANTHAN	175
Numerics for Lyapunov Exponents of Hypoelliptic Linear Stochastic Systems V. WIHSTUTZ	203
Vibration Mode Localization in Large Randomly Disordered Continuous Beams W-C XIE and S. T. ARIARATNAM	219
