

Table of Contents

Preface	ix
On non linear two-space dimensional wave equation perturbed by space-time white noise S. ALBEVERIO, Z. HABA, AND F. RUSSO	1
Blow up behaviour of a stochastic partial differential equation of reaction-diffusion type C. BANDLE, M. DOZZI, AND R. SCHOTT	27
Gaussian elliptic processes A. BENASSI, S. JAFFARD, AND D. ROUX	35
Self-intersection local time for Gaussian S' -processes, and application to fluctuation limits of branching particle systems T. BOJDECKI AND L. G. GOROSTIZA	49
Local structure of level sets of the Brownian sheet R. C. DALANG AND J. B. WALSH	57
On weak convergence of branching particle systems undergoing spatial motion D. A. DAWSON, K. J. HOCHBERG, AND V. VINOGRADOV	65
On the local behavior of the Brownian sheet M. L. ESQUIVEL	81
Superprocesses, branching processes and an explosive PDE A. M. ETHERIDGE	91
Waves in random media and two-parameter diffusions J.-P. FOUCQUE	105
Itô formulas for higher-order asymptotically stable motions and applications K. J. HOCHBERG AND A. MĄDRECKI	113
Loop space of a developable orbifold R. LÉANDRE	143

Multi-parameter stochastic processes via non-standard analysis L. MANEVITZ AND E. MERZBACH	151
Anticipative stochastic differential equations driven by a multidimensional Brownian motion D. NUALART AND M. THIEULLEN	169
Comparison change analysis and change empirical processes E. PARZEN	183
A class of path transformations of one-dimensional Brownian motion K. TAKAOKA	193
On weak convergence for two families of conditioned random functions V. VINOGRADOV	203
