## I Introduction

<b>1 Introduction</b>	<b>1</b>
1.1 Outline of the Book . . . . .	5
<b>2 New Zealand Taxes and Data</b>	<b>7</b>
2.1 The Structure of Indirect Taxes in NZ . . . . .	7
2.2 The Household Economic Survey. . . . .	11
2.3 Conclusions . . . . .	13

## II Excise Taxes and Welfare

<b>3 Excise Taxation, Equity and Efficiency</b>	<b>17</b>
3.1 The Modelling Approach . . . . .	20
3.2 Welfare Effects of Existing Indirect Taxes. . . . .	22
3.3 Revenue-Neutral Tax Reforms . . . . .	28
3.3.1 Revenue Neutrality . . . . .	28
3.3.2 Welfare Results . . . . .	29
3.4 Indirect Taxes and Inequality . . . . .	38
3.5 Money Metric Measures and Equivalence Scales . . . . .	39
3.6 Tax Reforms and Inequality . . . . .	42
3.6.1 Sensitivity Analyses. . . . .	48
3.7 Conclusions . . . . .	50
<b>4 A Petrol Tax Increase</b>	<b>53</b>
4.1 Indirect Taxes and Price Changes . . . . .	54
4.2 Simulation Results . . . . .	56
4.2.1 Welfare Changes. . . . .	56
4.2.2 Inequality Measures. . . . .	58
4.3 Conclusions . . . . .	63

### III Environmental Taxes

<b>5</b>	<b>Effects of a Carbon Tax</b>	<b>69</b>
5.1	A Carbon Tax and Price Changes . . . . .	72
5.1.1	Carbon Intensities . . . . .	73
5.1.2	Effective Tax Rates . . . . .	76
5.2	A Carbon Tax in New Zealand . . . . .	76
5.2.1	Fuel Use and Carbon Content . . . . .	77
5.2.2	Taxes and Prices . . . . .	78
5.3	Welfare Changes for Households . . . . .	80
5.4	Changes in Inequality . . . . .	86
5.5	Conclusions . . . . .	89
<b>6</b>	<b>Minimum Disruption Changes</b>	<b>91</b>
6.1	An Input-Output Approach . . . . .	92
6.1.1	Total Carbon Dioxide Emissions . . . . .	92
6.1.2	Disruptions to Final Demands . . . . .	95
6.1.3	Disruptions to Fuel-Use Coefficients . . . . .	98
6.2	Minimum Disruption Calculations . . . . .	99
6.2.1	Disruptions to Final Demands . . . . .	99
6.2.2	Disruptions to Fuel-Use Coefficients . . . . .	109
6.3	A Carbon Tax and Minimum Disruption Changes . . . . .	109
6.4	Conclusions . . . . .	114

### IV Tax Revenue

<b>7</b>	<b>The Revenue Elasticity of NZ Taxes</b>	<b>119</b>
7.1	Individual Revenue Elasticities . . . . .	121
7.1.1	Elasticity Formulae . . . . .	121
7.1.2	Estimates of Individual Revenue Elasticities . . . . .	125
7.2	Aggregate Revenue Elasticities . . . . .	128
7.2.1	Elasticity Formulae . . . . .	129
7.2.2	Estimates of Aggregate Revenue Elasticities . . . . .	130
7.2.3	Non-Equiproportional Income Changes . . . . .	132
7.3	Conclusions . . . . .	136

### V Some Measurement Issues

<b>8</b>	<b>Indirect Taxation and Progressivity</b>	<b>139</b>
8.1	Tax Revenue and Progressivity . . . . .	141

8.2	Welfare Changes with Fixed Parameters . . . . .	142
8.3	Welfare Changes with Variable Parameters. . . . .	144
8.3.1	Budget Shares . . . . .	144
8.3.2	The Modified Linear Expenditure System . . . . .	145
8.3.3	The Conditions for Welfare Progressivity . . . . .	146
8.4	Empirical Examples. . . . .	147
8.4.1	A Single Tax . . . . .	148
8.4.2	The Indirect Tax System . . . . .	149
8.5	Conclusions . . . . .	154
<b>9</b>	<b>The Income Unit and Income Concept</b>	<b>155</b>
9.1	Alternative Concepts and Measures . . . . .	157
9.1.1	Adult Equivalence Scales . . . . .	158
9.1.2	Units of Analysis . . . . .	159
9.2	Inequality Analysis for New Zealand . . . . .	160
9.2.1	Inequality Measures. . . . .	161
9.2.2	The Joint Distribution of $z_i$ and $n_i$ . . . . .	163
9.2.3	The Weight Attached to Children. . . . .	166
9.3	Poverty Measures . . . . .	167
9.4	Equivalence Scales and Direct Taxation. . . . .	173
9.5	Alternative Equivalence Scales. . . . .	176
9.6	Conclusions . . . . .	182
<b>VI</b>	<b>Conclusions</b>	
<b>10</b>	<b>Conclusions</b>	<b>187</b>
<b>A</b>	<b>Income and Consumption Taxes</b>	<b>197</b>
A.1	The Simplest Case . . . . .	197
A.2	Allowing for Savings . . . . .	200
<b>B</b>	<b>Welfare Changes and Tax Burdens</b>	<b>203</b>
B.1	A Money Measure of Welfare Change . . . . .	203
B.2	The Excess Burden . . . . .	206
B.3	The Compensating Variation . . . . .	209
<b>C</b>	<b>The Simulation Model</b>	<b>213</b>
C.1	The Linear Expenditure System . . . . .	213
C.2	Estimation for Each Total Expenditure Group . . . . .	215
C.3	Welfare Measures . . . . .	216
C.3.1	Compensating and Equivalent Variations . . . . .	217

C.3.2 Money Metric Welfare Measures . . . . .	219
C.4 Budget Shares and Expenditure Elasticities . . . . .	220
<b>D Revenue Elasticity Computations</b>	<b>223</b>
D.1 Expenditure Elasticities . . . . .	223
D.2 Income Distribution. . . . .	224
<b>E Progressivity and the LES</b>	<b>229</b>
<b>F The Almost Ideal Demand System</b>	<b>233</b>
<b>G Carbon Tax Tables</b>	<b>239</b>
<i>Bibliography</i>	243
<i>Index</i>	253

# List of Figures

3.1	Welfare Costs of Current System (Smoking Households) . . . . .	27
3.2	Welfare Costs of Current System (Non-smoking Households) . . .	28
3.3	Current Tax and Changes in Tax (Smoking Households) . . . . .	36
3.4	Current Tax and Changes in Tax (Non-smoking Households) . . .	36
3.5	Sensitivity of Inequality to Weight Attached to Children . . . . .	49
3.6	Sensitivity of Inequality to Economies of Scale . . . . .	49
6.1	Carbon Intensities and Changes in Final Demands with Reductions in Carbon . . . . .	103
6.2	Final Demands and Changes in Final Demands with Carbon Dioxide Emissions and GDP Growth Targets . . . . .	105
6.3	Changes in Final Demands and Raising the CO <sub>2</sub> Reduction Target . . . . .	106
6.4	Changes in Final Demands and Adding an Employment Growth Target . . . . .	107
6.5	Changes in Final Demands and Raising the GDP and Employment Growth Targets . . . . .	108
6.6	Changes in Final Demands and Raising the CO <sub>2</sub> Reduction Target with Growth and Employment Targets . . . . .	108
7.1	Individual Tax Revenue Elasticities . . . . .	127
7.2	Tax-Share Weighted Total Expenditure Elasticities . . . . .	128
7.3	Aggregate Tax Revenue Elasticities . . . . .	132
7.4	Aggregate Consumption Tax Revenue Elasticities . . . . .	133
8.1	Tax- and Welfare-Disproportionality in the Extended LES . . . . .	147
8.2	Tax-Disproportionality: 65+ Single Adults (Non-smoking) . . . . .	152
8.3	Disproportionality of Tax System: Single Adult, No Children (Non-smoking) . . . . .	153
8.4	Disproportionality of Tax System: Adult Couple, One Child (Non-smoking) . . . . .	153

9.1	Inequality Sensitivity: Individuals . . . . .	162
9.2	Inequality Sensitivity: Equivalent Adults . . . . .	163
9.3	Correlation Between Equivalent Income and Household Size . . . . .	165
9.4	Inequality Measures: $\Theta = 0.8$ . . . . .	166
9.5	Poverty Measures: Individual . . . . .	169
9.6	Poverty Measures: Children . . . . .	170
9.7	Increasing Alpha Over Low Ranges . . . . .	171
9.8	Increasing Alpha Over High Ranges. . . . .	172
9.9	Poverty Measures P1: Poverty Line = 195 and $\Theta = 0.8$ . . . . .	172
9.10	Reranking (Individuals) . . . . .	175
9.11	Reranking (Equivalent Adults) . . . . .	175
9.12	Inequality (Equivalent Adults, $\epsilon = 1.2$ ) . . . . .	180
9.13	Poverty P1 (Individual; Poverty Line = 195) . . . . .	181
B.1	A Tax on Good X . . . . .	204
B.2	Welfare Change and Excess Burden . . . . .	206
B.3	Demand Curves for Good X . . . . .	208
B.4	The Excess Burden as an Area . . . . .	209
B.5	The Compensating Variation . . . . .	210
B.6	Excess Burden Based on Compensating Variation . . . . .	210
D.1	Income Distribution . . . . .	228
F.1	Conditions for the AIDS Model . . . . .	238

# List of Tables

2.1	Commodity Groups and Tax Rates . . . . .	10
2.2	Household Categories . . . . .	12
3.1	Effects of Existing Taxes at Mean Total Expenditure Levels: Smoking Households . . . . .	25
3.2	Effects of Existing Taxes at Mean Total Expenditure Levels: Non-smoking Households . . . . .	26
3.3	Welfare Changes: Removal of Alcohol and Tobacco Excise Taxes: Smoking Households . . . . .	31
3.4	Welfare Changes: Removal of Alcohol and Tobacco Excise Taxes: Non-smoking Households . . . . .	32
3.5	Welfare Changes: Removal of All Excise Taxes: Smoking Households . . . . .	33
3.6	Welfare Changes: Removal of All Excise Taxes: Non-smoking Households . . . . .	34
3.7	Inequality: Removal of Alcohol and Tobacco Excise Taxes: Smoking Households . . . . .	43
3.8	Inequality: Removal of Alcohol and Tobacco Excise Taxes: Non-smoking Households . . . . .	44
3.9	Inequality: Removal of All Excise Taxes: Smoking Households . .	45
3.10	Inequality: Removal of All Excise Taxes: Non-smoking Households . . . . .	46
4.1	Welfare Changes for Smoking Households: Types 1-9 . . . . .	59
4.2	Welfare Changes for Smoking Households: Types 10-18. . . . .	60
4.3	Welfare Changes for Non-smoking Households: Types 1-9 . . . .	61
4.4	Welfare Changes for Non-smoking Households: Types 10-18 . . .	62
4.5	Inequality Measures for Excise Increase of 15 Cents. . . . .	64
5.1	Carbon Dioxide Emissions Factors: Tonnes per PJ. . . . .	78
5.2	Effective Carbon Tax and Effective Ad Valorem Tax Rates . . . .	79
5.3	Welfare and Tax Changes: Carbon Tax of 25 Dollars: Smoking Households . . . . .	82

5.4	Welfare and Tax Changes: Carbon Tax of 25 Dollars: Non-smoking Households . . . . .	83
5.5	Welfare and Tax Changes at Mean Weekly Expenditure: Smokers. . . . .	84
5.6	Welfare and Tax Changes at Mean Weekly Expenditure: Non-smokers . . . . .	85
5.7	Inequality Measures for Smokers . . . . .	87
5.8	Inequality Measures for Non-smokers . . . . .	88
6.1	Final Demands, Carbon Intensities and Employment Weights . .	101
6.2	Minimum Disruption Changes to Final Demands . . . . .	102
6.3	Percentage Change in Fuel-Use Coefficients: Part 1 . . . . .	110
6.4	Percentage Change in Fuel-Use Coefficients: Part 2 . . . . .	111
8.1	Conflicting Movements in Tax and Welfare Measures . . . . .	150
8.2	Cases of Tax-Regressivity and Welfare-Progressivity . . . . .	151
8.3	Cases of Tax-Progressivity and Welfare-Regressivity . . . . .	152
9.1	Equivalence Scales: Part 1. . . . .	177
9.2	Equivalence Scales: Part 2. . . . .	178
9.3	Equivalence Scales: Part 3. . . . .	179
D.1	Budget Share Regressions . . . . .	225
D.2	Budget Share Regressions (Continued) . . . . .	226
D.3	Grouped Distribution of Taxable Income: New Zealand . . . . .	227
G.1	Translation Between the Energy Account Industry Classification (EAIC) And The 49 Industry Group Classification (IGC) . . . . .	240
G.2	Translation Between the Energy Account Industry Classification (EAIC) And The 49 Industry Group Classification (IGC) (Continued) . . . . .	241
G.3	Fuel Demands by Industry Group Classification (IGC): Year Ended March 1996 . . . . .	242
