

# Table of contents

<b>Preface</b> . . . . .	9
<b>Part I INTRODUCTION AND BACKGROUND TO THE METHOD</b>	
<b>1 The ideas behind the method</b> . . . . .	15
1.1 Usability and user interface design . . . . .	15
1.2 The contribution of ergonomics. . . . .	16
1.3 The need for a practical method for assessing usability . .	16
1.4 Development of the evaluation method . . . . .	17
1.5 Potential financial benefits of using the method. . . . .	18
<b>2. Overview of the method</b> . . . . .	19
2.1 The evaluation checklist . . . . .	19
2.1.1 Composition of the checklist . . . . .	19
2.1.2 Sources of the checklist questions . . . . .	20
2.2 How should the checklist be used? — The importance of evaluation tasks . . . . .	21
2.3 Who should be involved in the evaluation? . . . . .	22
2.4 When can the method be used? . . . . .	22
<b>Part II THE EVALUATION CHECKLIST IN DETAIL</b>	
<b>3. The evaluation checklist</b> . . . . .	27
<b>4. Detailed explanations of criterion-based sections</b> . . . . .	45
4.1 Checklist section 1: visual clarity . . . . .	45
4.1.1 Description of visual clarity . . . . .	45
4.1.2 Explanation of visual clarity checklist questions . .	46
4.2 Checklist section 2: consistency . . . . .	49
4.2.1 Description of consistency . . . . .	49

4.2.2	Explanation of consistency checklist questions . . .	50
4.3	Checklist section 3: compatibility . . . . .	52
4.3.1	Description of compatibility . . . . .	52
4.3.2	Explanation of compatibility checklist questions . . .	53
4.4	Checklist section 4: informative feedback . . . . .	56
4.4.1	Description of informative feedback . . . . .	56
4.4.2	Explanation of informative feedback checklist questions . . . . .	57
4.5	Checklist section 5: explicitness . . . . .	59
4.5.1	Description of explicitness . . . . .	59
4.5.2	Explanation of explicitness checklist questions . . .	60
4.6	Checklist section 6: appropriate functionality . . . . .	62
4.6.1	Description of appropriate functionality . . . . .	62
4.6.2	Explanation of appropriate functionality checklist questions . . . . .	62
4.7	Checklist section 7: flexibility and control . . . . .	64
4.7.1	Description of flexibility and control . . . . .	64
4.7.2	Explanation of flexibility and control checklist questions . . . . .	65
4.8	Checklist section 8: error prevention and correction . . .	68
4.8.1	Description of error prevention and correction . . .	68
4.8.2	Explanation of error prevention and correction checklist questions . . . . .	69
4.9	Checklist section 9: user guidance and support . . . . .	71
4.9.1	Description of user guidance and support . . . . .	71
4.9.2	Explanation of user guidance and support checklist questions . . . . .	72

### **Part III HOW TO EVALUATE A USER INTERFACE USING THE METHOD**

<b>5.</b>	<b>How to construct tasks for the evaluation . . . . .</b>	<b>77</b>
5.1	Why use tasks in an evaluation? . . . . .	77
5.2	Overview of evaluation task construction . . . . .	78
5.3	Task analysis . . . . .	78
5.3.1	Information collection . . . . .	79
5.3.2	Representing the task information . . . . .	81
5.3.3	Iteration of the task information . . . . .	81
5.4	Development of the evaluation task(s) . . . . .	82
5.4.1	Deciding on the number of evaluation tasks . . . . .	82
5.4.2	General guidance for developing evaluation tasks . . .	82
5.4.3	Pilot and iterate . . . . .	83
5.4.4	Developing instructions for carrying out the evaluation tasks . . . . .	83

5.5 Summary of points to note when constructing evaluation tasks . . . . .	84
<b>6. How to conduct the evaluation . . . . .</b>	<b>85</b>
6.1 Preliminary considerations . . . . .	85
6.1.1 How to design the evaluation. . . . .	85
6.1.2 Know the ‘users’: background information on evaluators . . . . .	86
6.1.3 How to record task performance . . . . .	87
6.2 Briefing the evaluators . . . . .	89
6.2.1 Briefing before they carry out the task(s) . . . . .	89
6.2.2 Briefing before they complete the checklist. . . . .	92
<b>7. How to analyse the results of the evaluation. . . . .</b>	<b>94</b>
7.1 Introduction . . . . .	94
7.2 Information which a completed checklist may provide. . . . .	96
7.2.1 Points to note in the criterion-based sections (1 to 9) . . . . .	96
7.2.2 Points to note in section 10, on usability problems . . . . .	99
7.2.3 Points to note in section 11 (general questions on usability). . . . .	99
7.3 Possible strategies for analysing a completed checklist. . . . .	101
7.3.1 A ‘top-down’ analysis . . . . .	101
7.3.2 A ‘bottom-up’ analysis . . . . .	101
7.3.3 How the context of the evaluation may influence the strategy . . . . .	102
7.4 Analysing differences between evaluators. . . . .	102
7.4.1 Comparing the different checklists . . . . .	103
7.4.2 Investigating possible reasons for the differences . . . . .	103
7.4.3 What to do with differing results . . . . .	104
7.4.4 Analysing the results with a large number of evaluators . . . . .	105
<b>Appendix: case studies. . . . .</b>	<b>106</b>
A.1 Case study 1: a prototype scheduling package . . . . .	106
A.1.1 The system . . . . .	107
A.1.2 The evaluation. . . . .	108
A.1.3 Benefits gained by the interface designer from the evaluation . . . . .	108
A.1.4 Benefits of involving evaluators from different backgrounds . . . . .	109
A.1.5 Summary . . . . .	110
A.2 Case study 2: a project management system . . . . .	110

A.2.1	The system . . . . .	110
A.2.2	The evaluation . . . . .	110
A.2.3	Error-related problems in the 'sample' checklist . . .	111
A.2.4	Summary of the sample evaluator's error-related problems . . . . .	113
A.3	Case study 3: user interfaces to a public database . . . . .	113
A.3.1	The systems . . . . .	114
A.3.2	The evaluation . . . . .	114
A.3.3	Collating and analysing the results . . . . .	116
A.3.4	Summary of the case study . . . . .	117
	<b>References . . . . .</b>	<b>118</b>
	<b>Bibliography . . . . .</b>	<b>120</b>
	<b>Index . . . . .</b>	<b>123</b>
