

Contents

1. Integration and Functional Analysis

M. DUCHON AND M. ZAJAC	
Convolution of spectral mappings	9
W. FILTER	
Remarks on representations of spaces of measures	15
N.D. MACHERAS AND W. STRAUSS	
On the existence of strong liftings for locally convex topologies	21
G. PLEBANEK	
On Mazur property and realcompactness in $C(K)$	27
H. WEBER	
Compact convex sets in non locally convex linear spaces, Schauder-Tychonoff fixed point theorems	37

2. Fractals and Geometric Measure Theory

✓ C. BANDT AND T. RETTA	
Self-similar sets as inverse limits of finite topological spaces	41
· H.G. BOTHE	
The Hausdorff dimension of certain attractors	47
J. GRIGULL	
A renewal equation for the free energy	53
✓ P. GUMMELT	
Self-similar sets and tilings	58
· H. HAASE	
A survey on the dimension of measures	66
K. KELLER	
The abstract Mandelbrot set – an atlas of abstract Julia sets	76
✓ T. KUSCHEL	
Average interior distance on self-similar sets	82
M. MORAN	
Distances between neighbour subsets of R^n	89
M. REYES	
On the dimension print of the Cartesian product of linear sets	100
· L. STAIGER	
Hausdorff dimension of constructively specified sets and applications to image processing	109
M. ZÄHLE	
Fractional differentiation	121

3. Classical Measure Theory and Quantum logics

D. BIERLEIN	
A representation of extreme measure extensions	127
F. KATRNOŠKA	
Logics of idempotents of rings	131
H. KÖNIG	
New constructions related to inner and outer regularity of set functions	137
M. NAVARA AND P. PTAK	
On the Radon-Nikodym property in quantum logics	147
Z. RIEČANOVA	
Measures and topologies on atomic quantum logics	154

4. General Topology and Topological Dynamics

I. BANDLOW	
Two factorization theorems	162
J.J. CHARATONIK	
Some problems concerning means in topological spaces	166
S. GÄHLER	
On discrete Cauchy spaces	178
W. GÄHLER	
Fuzzy Topology	188
L. HOLA	
Topologies on graphs of linear functionals	198
J. MIEBACH	
A representation for Z^d -subshifts of finite type	208
F. TERPE	
Some properties of metric-preserving functions	214
V. WARSTAT	
A remark on uniqueness conditions for Gibbs measures	218
List of participants of "Topology and Measure VI"	223
