

C o n t e n t s

1. Introduction. Foreword to the Revised Edition	1
2. First order predicate logic with choice operator	3
3. First order term logic with choice operator.....	5
4. Embedding of predicate logic in term logic	8
5. Embedding of term logic in predicate logic	13
6. Free occurrence of a variable. Rank of a term. Elementary substitution.	18
7. A term calculus	21
8. Soundness of the rules	24
9. Survey of the completeness proof	26
10. Some theorems concerning deducibility	29
11. Substitution	30
12. Further theorems concerning deducibility	37
13. Survey of the proof of the Theorem on satisfiability.....	42
14. Details of the proof.....	47
15. Completeness of restricted term calculus	52
 Bibliography	 53
