

Contents

Some Preliminaries	1
Unit 1. The Logic of Conditionals and Negations: Formation and Inference Rules	3
Rules of Inference; The Artificial Language CN; Summary: The Language CN; The Inferences of CN.	
Unit 2. The Logic of Conditionals and Negations: CN Derivations	16
Argument Forms; Summary; Rules for CN Derivations; Strategy; Summary of Strategy.	
Unit 3. The Logic of Conditionals and Negations: CN Translations	50
From English to CN and Back; Stylistic Approximations: ‘Only If’; ‘Even If’; ‘Not’; Choosing a Lexicon; Arguments in Their Natural Habitat Revisited.	
Unit 4. CN-Counter Examples	72
Evaluating Arguments: Derivations and Counter Examples.	
Unit 5. Philosophical Interlude	82
Use and Mention: Sentences, Prepositions, and Statements; Implications and Conditionals; Eliminating Reductio; Eliminating Reiteration; Logic and Mathematics; Logic and Humor.	
Unit 6. Sentential Logic: Derivations	94
Expanding CN; New Sentences; New Inferences; Rules for SL Derivations; SL Inferences—A Summary; Informal Conventions for SL; Strategy; Summary of SL Strategy.	
Unit 7. Sentential Logic: Translations	118
To and From SL: ‘Unless’ and Other Expressions.	
Unit 8. Arguments in SL: Abbreviated Derivations, Validity, and Invalidity	127
Putting Theorems to Work; Packing More into Annotations; Separation of Cases; De Morgan’s Laws; Summary of Strategy for SL (with Abbreviations); Evaluating English Arguments.	
Unit 9. Philosophical Tidbits and Computers	149
Motivation and Approach; Other Notations: ‘‘Truth’’ Tables; Applications: ‘‘Truth’’ Tables and Computers.	

Unit 10. The Logic of Predicates and Relations: Translations	158
<p>Troubles with SL; Specific-Names, Predicates, and Relations; 'Each' and 'Some'; Quantifiers and Connectives; Quantifier Strings.</p>	
Unit 11. Inference Rules and Derivation Forms for Predicates and Relations	182
<p>Informal Conventions for PR; Proper Replacement; Rules for PR Derivations; Universal Instantiation; Existential Instantiation; Existential Generalization; Universal Derivation.</p>	
Unit 12. Strategy and Derivations in PR	195
<p>Basic PR Strategy; Two Shortcuts; Advanced Strategies.</p>	
Unit 13. Translation Revisited	208
<p>Paraphrase and Partial Translation; Troublesome Phrases.</p>	
Unit 14. Invalidity Revisited	224
<p>PR Counter-Examples.</p>	
Unit 15. More Philosophical Matters	231
<p>Traditional Logic; Logic by Diagram; Relations; Informal "Proofs"; Other Notations.</p>	
Unit 16. The Language QL	239
<p>Quantifier Logic; New Names from Old; Sentences and Formulas; Formula-Makers; Bondage and Freedom; Inferences in QL; Rewriting Bound Variables; Informal Conventions for QL; Using Inference Rules with Operation Expressions.</p>	
Unit 17. Derivations and Strategy	257
<p>QL Derivations; Strategies for QL.</p>	
Unit 18. Concocting Adequate Lexicons	265
<p>To and From QL; Concocting a Lexicon.</p>	
Unit 19. Argument Analysis	279
<p>Relativization and Counter-Example.</p>	
Unit 20. New Theorems From Old	285
<p>New Theorems from Old.</p>	
Unit 21. Interchanging Provable Equivalents	294
<p>Interchange of Provable Equivalents; Handy Equivalents.</p>	
Unit 22. The Logic of Identity	301
<p>'Is': Formal Developments: The Language QLI; Using Id^+ and Id^-; Leibniz' Law; Euclid's Law; To and from QLI; Argument Analysis.</p>	

Unit 23. Theories and Definitions	316
Theories; Definitions.	
Unit 24. Models and Meaning	325
Interpretations; Truth and Falsehood; Semantics; Models; Isomorphic Interpretations.	
Unit 25. The Logic of Description	343
'The'; Formal Developments; Translation; QLID Inference Rules; Derivations; AV Extended; Strategy; Invalidity.	
Unit 26. Potpourri	361
Interchange; Definition Revisited; What Next?	
Suggestions, Hints, and Answers for Selected Exercises	367
Index	413
