TABLE OF CONTENTS

K. Ajdukiewicz / Methodology and Metascience 1
K. Ajdukiewicz / The Problem of the Rationality of Fallible Methods of Inference 13
K. Ajdukiewicz / The Problem of Justifying Analytic Sentences . 31
K. Ajdukiewicz / Axiomatic Systems from the Methodological Point of View 49
Z. Czerwiński / The Problem of Probabilistic Justification of Enumerative Induction 65
Z. Czerwiński / Enumerative Induction and the Theory of Games 81
T. Czeżowski / On Testability in Empirical Sciences 93
J. Giedymin / On the Theoretical Sense of the So-Called Observational Terms and Sentences 111
A. Grzegorczyk / The Pragmatic Foundations of Semantics . . . 135
A. Grzegorczyk / Mathematical and Empirical Verifiability . . . 165
J. Kmita / Meaning and Functional Reason 171
M. Kokoszyńska / On a Certain Condition of Semantic Theory of Knowledge 189
M. Kokoszyńska / On the Difference between Deductive and Non-Deductive Sciences. 201
J. Kotarbińska / On Ostensive Definitions 233
J. Kotarbińska / The Controversy: Deductivism versus Inductivism 261
T. Kotarbiński / Concepts and Problems in General Methodology and Methodology of the Practical Sciences 279
J. Łoś / The Foundations of a Methodological Analysis of Mill's Methods 291
J. Łoś / Semantic Representation of the Probability of Formulas in Formalized Theories 327
S. Łuszczewska-Romahnowa / Classification as a Kind of Distance Function. Natural Classifications. 341
W. Mejbaum / The Physical Magnitude and Experience 375
H. Mortimer / Probabilistic Definition on the Example of the Definition of Genotype 433

A. Nowaczyk / Analytic Sentences in the Semantic System . . . 457
L. Nowak / The Model of Empirical Sciences in the Concepts of the Creators of Marxism 499
T. Pawłowski / On the Empirical Meaningfulness of Sentences . . 541
M. Przełęcki / A Model-Theoretic Approach to the Problem of Interpretation of Empirical Languages 551
M. Przełęcki / Empirical Meaningfulness of Quantitative Statements 577
M. Przełęcki, R. Wójcicki / The Problem of Analyticity 589
K. Szaniawski / A Method of Deciding between *N* Statistical Hypotheses 615
K. Szaniawski / Interpretations of the Maximum Likelihood Principle 625
K. Szaniawski / Two Concepts of Information 635
R. Wójcicki / Semantical Criteria of Empirical Meaningfulness . . 647
R. Wójcicki / Basic Concepts of Formal Methodology of Empirical Sciences 681
Z. Ziemba / Rational Belief, Probability and the Justification of Inductive Inference 709
