

Table of Contents

	<u>Page</u>
1. Introduction	1
2. Shifts of Finite Type, Factor Maps and the Dimension Group	6
3. Eventual Factors Theorem	24
4. Eventual Factors for Sofic Systems	37
5. Linear Maps, Ideal Classes, and Realization	49
6. Common Factors	65
7. Common Extensions	67
8. Regular Isomorphism	83
9. Duality	88
10. Compositions of Closing Maps	95
11. Topological Construction of Dimension Groups	107
12. Stable Factor Maps	115
13. References	139
14. Index	143
15. List of Symbols	145
