

TABLE OF CONTENTS

| | |
|---|-----|
| Abstract | iv |
| Introduction | v |
| Dedication | vii |
| Section 0. Statements, definitions, examples and discussion | 1 |
| 0.1 Invariants of proper homotopy theory | 4 |
| 0.2 Definitions, statements and examples | 8 |
| 0.3 Outline of the paper | 13 |
| Section 1. Handles, handle procedures, reductions and end reductions | 15 |
| 1.1 Definitions | 15 |
| 1.2 Statements of properties | 18 |
| 1.3 Proofs of properties | 21 |
| Section 2. Elementary consequences of end 1-movability | 32 |
| Section 3. The eventually end irreducible case | 36 |
| Section 4. End 1-movability of interiors | 42 |
| Section 5. The irreducible case — I: Basic structure | 48 |
| Section 6. The irreducible case — II: Missing boundary | 55 |
| Section 7. The irreducible case — III: Isolated ends | 58 |
| Section 8. The final analysis — the simply connected case | 63 |
| References | 70 |
| Index of defined terms | 73 |
