ABSTRACT	iii
INTRODUCTION	
A. Spaces of Concordances	3
B. Known Results	6
C. The Multiple Disjunction Lemma	10
D. Sketch of the Proof	16
1. The overall plan	17
2. A stratification	19
a. Operation B	21
b. Operation C°	25
c. Operation A	25
d. Operation D	26
e. Operation C	27
f. The stratification	29
3. Why the stratification is a stratification	30
a. "Relative semi-algebraicity"	31
b. The Hilbert variety	32
4. Keeping track of the ordering	39
5. Using the stratification	42
PRELIMINARIES	54
A. Definitions, etc.	54
1. Manifolds	54
2. Algebraic varieties	58
B. (a+1)-ads and Connectivity	61
1. (a+1)-ads	62
2. The homotopy groups of an (a+1)-ad	63
3. Connectivity of (a+1)-ads	67
4. "Homotopy excision" for (a+1)-ads	68

C. Sunny Collapsing 79

D. Multijets and General Position 104

E. Approximation by Polynomials 114

1. The holomorphic case 115
2. The C^∞ case 129

II. THE COLLECTION Z of Multijet Sets 130

A. Invariant Algebraic Sets of Complex Multijets 132

1. Algebraic sets of complex multijets 132
2. Invariance 135
   a. Domain-invariance 138
   b. Range-invariance 145
   c. $S(Z,P,N)$ 149

B. Operations on Sets of Multijets 157

1. Operation A 157
2. Operation B 157
3. Operation C (and C°) 158
4. Operation D 161
5. The operations preserve invariance 175

C. Z 186

1. Formal facts 186
2. Codimension 195
3. Goodness and badness 218

D. Singular Sets for Fibered Concordances 220

1. General position with respect to Z 221
2. Singular sets 225
   a. $S_\alpha(F)$ 225
   b. $W_\alpha(F)$ 230

i. Operation A 231
ii. Operation D 232
iii. Operation B 232
iv. Operation C 240
c. $W_{\alpha}^{(D,R)}(F)$ 245

III. PROOF OF THEOREM D 252
A. Structure of the Proof 252
B. Proof of $(189)_{\alpha_0}$ 256
C. $(189)_{\alpha+1} \Rightarrow (189)_{\alpha}$ 264
1. Reduction to Claim 113 264
2. Proof of Claim 113: beginning 265
3. Reduction to $(206)_0$ 278
4. Proof of $(206)_{\alpha}$ 282
5. $(206)_{\beta+1} \Rightarrow (206)_{\beta}$ 291
a. Reduction to Claim 117 294
b. Proof of Claim 117 301
D. One Last Sunny Collapse 311
