

Contents in Brief

Introduction	1
Part One. Basic Models of a Monetary Union	11
Chapter 1. The Small Monetary Union of Two Countries	13
Chapter 2. The World as a Whole.....	27
Chapter 3. The World of Two Monetary Regions	33
Part Two. Monetary Interactions between Europe and America	49
Chapter 1. Monetary Competition between Europe and America	51
Chapter 2. Monetary Cooperation between Europe and America.....	71
Part Three. Wage Interactions between Germany and France	81
Chapter 1. Competition between the German Labour Union and the French Labour Union	83
Chapter 2. Cooperation between the German Labour Union and the French Labour Union	103
Part Four. Monetary and Wage Interactions: Intermediate Models	113
Chapter 1. Competition between European Central Bank, German Labour Union, and French Labour Union.....	115
Chapter 2. Cooperation between European Central Bank, German Labour Union, and French Labour Union.....	130
Chapter 3. Competition between European Central Bank, American Central Bank, German Labour Union, and French Labour Union.....	139

Chapter 4. Cooperation between European Central Bank, American Central Bank, German Labour Union, and French Labour Union	150
---	-----

Part Five. Monetary and Wage Interactions:

Advanced Models	163
Chapter 1. Simultaneous Decisions: Cold-Turkey Policies	165
Chapter 2. Simultaneous Decisions: Gradualist Policies.....	170
Chapter 3. Fast Monetary Competition and Slow Wage Competition	176
Chapter 4. Monetary Cooperation between Europe and America, Wage Competition between Germany and France.....	180
Chapter 5. Monetary Cooperation between Europe and America, Wage Cooperation between Germany and France.....	192
Chapter 6. Policy Cooperation within Europe, Policy Competition between Europe and America	202

Part Six. Rational Policy Expectations

Chapter 1. Monetary Competition between Europe and America	211
Chapter 2. Wage Competition between Germany and France	217
Chapter 3. Monetary and Wage Competition: Sequential Decisions	222
Chapter 4. Monetary and Wage Competition: Simultaneous Decisions	231
Chapter 5. Monetary Cooperation between Europe and America, Wage Competition between Germany and France.....	233
Chapter 6. Policy Cooperation within Europe, Policy Competition between Europe and America	238

Contents

Introduction	1
1. Subject and Approach	1
2. Monetary Competition between Europe and America.....	2
3. Monetary Cooperation between Europe and America.....	5
4. Wage Competition between Germany and France	5
5. Wage Cooperation between Germany and France.....	7
6. Monetary and Wage Competition	8
7. Monetary and Wage Cooperation	9
Part One. Basic Models of a Monetary Union	11
Chapter 1. The Small Monetary Union of Two Countries	13
1. The Model	13
1.1. Introduction	13
1.2. The Market for German Goods	13
1.3. The Market for French Goods.....	15
1.4. The Money Market of the Union	17
1.5. Technology and Price Setting.....	18
1.6. The Model	19
1.7. The Rate-of-Growth Method.....	21
2. Monetary Policy	23
3. Wage Policy	25
Chapter 2. The World as a Whole	27
1. The Model	27
2. Monetary Policy.....	30
3. Wage Policy	31
Chapter 3. The World of Two Monetary Regions	33
1. The Model	33
1.1. Introduction	33

1.2. The Market for European Goods.....	33
1.3. The Market for American Goods	35
1.4. The European Money Market.....	36
1.5. The American Money Market	37
1.6. Technology and Price Setting.....	37
1.7. The Model	39
1.8. The Rate-of-Growth Method.....	41
2. Monetary Policy	43
3. Wage Policy	45

Part Two. Monetary Interactions between Europe and America

49

Chapter 1. Monetary Competition between Europe and America

51

1. The Dynamic Model	51
2. Some Numerical Examples	59
2.1. The Case of Unemployment.....	60
2.2. Europe and America Differ in Unemployment.....	64
2.3. The Case of Inflation.....	65
2.4. Unemployment in Europe, Inflation in America.....	68

Chapter 2. Monetary Cooperation between Europe and America

71

1. The Model	71
2. Some Numerical Examples	74

Part Three. Wage Interactions between Germany and France

81

Chapter 1. Competition between the German Labour Union and the French Labour Union

83

1. The Dynamic Model	83
2. Some Numerical Examples	91
2.1. Unemployment in Germany Equals Unemployment in France	92
2.2. Unemployment in Germany Is High, Unemployment in France Is Low	95

2.3. Unemployment in Germany, Full Employment in France	97
2.4. Unemployment in Germany, Overemployment in France	98
2.5. Overemployment in Germany and France	100

Chapter 2. Cooperation between the German Labour Union and the French Labour Union	103
1. The Model	103
2. Some Numerical Examples	105

Part Four. Monetary and Wage Interactions: Intermediate Models	113
---	------------

Chapter 1. Competition between European Central Bank, German Labour Union, and French Labour Union	115
1. The Dynamic Model	115
2. Some Numerical Examples	117
2.1. Unemployment in Europe, Full Employment in America	118
2.2. Another Interpretation	120
2.3. Overemployment in Europe, Full Employment in America	122
2.4. First the Labour Unions Decide, then the Central Bank Decides	126

Chapter 2. Cooperation between European Central Bank, German Labour Union, and French Labour Union	130
1. The Model	130
2. Some Numerical Examples	132
2.1. Unemployment in Europe, Full Employment in America	132
2.2. Overemployment in Europe, Full Employment in America	134
2.3. Alternative Targets of Policy Cooperation	136

Chapter 3. Competition between European Central Bank, American Central Bank, German Labour Union, and French Labour Union	139
1. The Dynamic Model	139
2. Some Numerical Examples	141
2.1. The Case of Unemployment	142
2.2. Europe and America Differ in Unemployment	145

2.3. The Case of Overemployment.....	147
--------------------------------------	-----

Chapter 4. Cooperation between

European Central Bank, American Central Bank, German Labour Union, and French Labour Union	150
---	------------

1. The Model	150
2. Some Numerical Examples	153
2.1. The Case of Unemployment.....	153
2.2. Europe and America Differ in Unemployment	155
2.3. The Case of Overemployment.....	156
2.4. Unemployment in Europe, Overemployment in America	158
2.5. Alternative Targets of Policy Cooperation.....	159

Part Five. Monetary and Wage Interactions:

Advanced Models	163
------------------------------	------------

Chapter 1. Simultaneous Decisions: Cold-Turkey Policies	165
--	------------

Chapter 2. Simultaneous Decisions: Gradualist Policies	170
---	------------

Chapter 3. Fast Monetary Competition and Slow Wage Competition.....	176
--	------------

Chapter 4. Monetary Cooperation between Europe and America, Wage Competition between Germany and France	180
--	------------

1. The Model	180
2. Some Numerical Examples	182
2.1. The Case of Unemployment.....	182
2.2. Europe and America Differ in Unemployment	185
2.3. The Case of Overemployment.....	187
2.4. Unemployment in Europe, Overemployment in America	189

Chapter 5. Monetary Cooperation between Europe and America, Wage Cooperation between Germany and France.....	192
---	------------

1. The Model	192
2. Some Numerical Examples	194
2.1. The Case of Unemployment.....	195
2.2. Europe and America Differ in Unemployment	197
2.3. The Case of Overemployment.....	198
2.4. Unemployment in Europe, Overemployment in America	200

Chapter 6. Policy Cooperation within Europe, Policy Competition between Europe and America	202
1. The Model	202
2. A Numerical Example.....	204
Part Six. Rational Policy Expectations	209
Chapter 1. Monetary Competition between Europe and America	211
Chapter 2. Wage Competition between Germany and France	217
Chapter 3. Monetary and Wage Competition: Sequential Decisions	222
Chapter 4. Monetary and Wage Competition: Simultaneous Decisions	231
Chapter 5. Monetary Cooperation between Europe and America, Wage Competition between Germany and France	233
Chapter 6. Policy Cooperation within Europe, Policy Competition between Europe and America	238
Synopsis	245
Conclusion	249
1. Monetary Competition between Europe and America.....	249
2. Monetary Cooperation between Europe and America.....	254
3. Wage Competition between Germany and France	257
4. Wage Cooperation between Germany and France.....	260
5. Monetary and Wage Competition	261
6. Monetary and Wage Cooperation	265
7. Simultaneous Decisions: Cold-Turkey Policies.....	267
8. Simultaneous Decisions: Gradualist Policies.....	268
9. Monetary Cooperation and Wage Competition	269
10. Monetary Cooperation and Wage Cooperation	272
11. Rational Policy Expectations	274

Result	277
1. Monetary Competition between Europe and America.....	277
2. Monetary Cooperation between Europe and America.....	279
3. Wage Competition between Germany and France	280
4. Wage Cooperation between Germany and France.....	281
5. Monetary and Wage Competition	282
6. Monetary and Wage Cooperation	284
