Abstract	viii
Acknowledgments	ix
Introduction	1
1. Principal results	4
2. Preliminaries	8
3. Some algebraic and set-theoretic properties of pseudocompact groups	18
4. Three technical lemmas	31
5. Pseudocompact group topologies on \mathcal{V} -free groups	36
6. Pseudocompact topologies on torsion Abelian groups	43
7. Pseudocompact connected group topologies on Abelian groups	48
8. Pseudocompact topologizations versus compact ones	57
9. Some diagrams and open questions	64
10. Diagram 2	68
11. Diagram 3	69
Bibliography	76
