

## Table of Contents

Introduction	1
1. Chain Recurrence and Basic Sets	11
2. Simplicial Maps and Their Local Inverses	25
3. The Shift Factor Maps for a Simplicial Dynamical System	40
4. Recurrence and Basic Set Images	59
5. Invariant Measures	93
6. Generalized Simplicial Dynamical Systems	120
7. Examples	124
8. PL Roundoffs of a Continuous Map	140
9. Nondegenerate Maps on Manifolds	151
10. Appendix: Stellar and Lunar Subdivisions	166
11. Appendix: Hyperbolicity for Relations	177
References	192
Index	195
