|  |    |
|--|----|
| Chapter 1. Introduction  | 1  |
| 1.1. Preliminaries   | 2  |
| 1.2. The case of commuting pairs in a simply connected group                               | 4  |
| 1.3. $c$ -pairs  | 4  |
| 1.4. Commuting triples   | 5  |
| 1.5. $C$ -triples  | 6  |
| 1.6. Quotients of diagram automorphisms  | 7  |
| 1.7. Description of $\overline{S}(k)$ and $\overline{S}^{w_C}(\overline{\mathfrak{g}}, k)$ | 8  |
| 1.8. Chern-Simons invariants and Witten's "Clockwise Symmetry Conjecture"                  | 9  |
| 1.9. Outline of the paper  | 11 |
| 1.10. History  | 13 |
| Chapter 2. Almost commuting $N$ -tuples  | 15 |
| 2.1. An invariant for almost commuting $N$ -tuples   | 15 |
| 2.2. The case of rank zero   | 16 |
| 2.3. The case of arbitrary rank  | 18 |
| Chapter 3. Some characterizations of groups of type $A$                                    | 21 |
| 3.1. Generalities on subroot systems   | 21 |
| 3.2. Action of $\mathcal{C}G$ on an alcove   | 21 |
| 3.3. A first characterization of groups of type $A$  | 24 |
| 3.4. Subgroups associated with elements of the center                                      | 25 |
| 3.5. A further characterization of products of groups of type $A$                          | 26 |
| 3.6. A consequence of Proposition 3.5.1  | 27 |
| 3.7. Application to generalized Cartan matrices and affine diagrams                        | 28 |
| 3.8. Numerology of clockwise symmetry  | 30 |
| Chapter 4. $c$ -pairs  | 35 |
| 4.1. The rank zero case  | 35 |
| 4.2. The general case  | 37 |
| Chapter 5. Commuting triples   | 39 |
| 5.1. Commuting triples of rank zero  | 39 |
| 5.2. A list of all simple groups with rank zero commuting triples                          | 41 |
| 5.3. Action of the outer automorphism group of $G$   | 41 |
| 5.4. Action of the center of $G$   | 41 |
| 5.5. The general case  | 42 |

|  |     |
|--|-----|
| Chapter 6. Some results on diagram automorphisms and associated root systems   | 47  |
| 6.1. A chamber structure and a Coxeter group on the fixed subspace   | 47  |
| 6.2. The restricted root system and the projection root system   | 49  |
| 6.3. Generalized Cartan matrices for $\Phi^{\text{res}}(\ell)$ and $\Phi^{\text{proj}}(\ell)^\vee$   | 53  |
| 6.4. The case of an outer automorphism   | 56  |
| 6.5. Further results under an additional hypothesis  | 58  |
| 6.6. The case of a subgroup of $C\Phi$   | 59  |
| 6.7. Proof of Theorem 1.6.2  | 61  |
| Chapter 7. The fixed subgroup of an automorphism   | 63  |
| 7.1. A first description of the component group  | 63  |
| 7.2. Special automorphisms   | 65  |
| 7.3. A complete description of the component group   | 67  |
| 7.4. The roots of $H^\sigma$   | 72  |
| 7.5. The case of $c$ -pairs  | 73  |
| 7.6. Variation of $\pi_0(Z(x, y))$ as $x$ varies   | 75  |
| Chapter 8. $C$ -triples  | 77  |
| 8.1. $c$ -triples of rank zero   | 77  |
| 8.2. The maximal torus of a $c$ -triple of order $k$   | 83  |
| 8.3. The number of components  | 87  |
| 8.4. Proof of Parts 1,2,3 of Theorem 1.5.1 for $\langle C \rangle$ cyclic  | 88  |
| 8.5. Proof of Part 4 of Theorem 1.5.1 for $\langle C \rangle$ cyclic   | 89  |
| Chapter 9. The tori $\bar{S}(k)$ and $\bar{S}^{w_C}(\bar{\mathfrak{g}}, k)$ and their Weyl groups  | 91  |
| 9.1. A root system on $\hat{f}(k)$   | 91  |
| 9.2. Completion of the proof of Theorem 1.4.1  | 95  |
| 9.3. Completion of the proof of Theorem 1.5.1 in case $\langle C \rangle$ is cyclic  | 95  |
| 9.4. The generalized Cartan matrix associated to $\tilde{\Delta}^\vee - \tilde{I}^\vee(\mathfrak{n}, k) \subset \mathfrak{t}(\mathfrak{n}, k)$ | 96  |
| 9.5. Proof of Theorem 1.7.4  | 99  |
| Chapter 10. The Chern-Simons invariant   | 101 |
| 10.1. An algebraic invariant of $c$ -triples   | 101 |
| 10.2. Flat connections and the Chern-Simons invariant  | 108 |
| 10.3. The basic computation  | 113 |
| 10.4. Proof of Theorem 1.8.1 and Theorem 1.8.2 in the case where $\langle C \rangle$ is cyclic   | 116 |
| Chapter 11. The case when $\langle C \rangle$ is not cyclic  | 119 |
| 11.1. Rank zero $C$ -triples   | 119 |
| 11.2. Action of the center and of the outer automorphism group   | 121 |
| 11.3. The general case   | 121 |
| 11.4. Chern-Simons invariants  | 124 |
| 11.5. Proof of Theorem 1.8.1 and Theorem 1.8.2 when $\langle C \rangle$ is not cyclic  | 126 |
| Bibliography   | 127 |
| Diagrams and tables  | 129 |
| Extended coroot diagrams and extended coroot integers  | 129 |

|  |     |
|--|-----|
| Quotient extended coroot diagrams and quotient coroot integers   | 132 |
| Root systems on $\mathfrak{t}^{w_C}$   | 135 |
| Root systems on $\mathfrak{t}(k)$ for $k > 1$  | 136 |
| Root systems on $\mathfrak{t}^{w_C}(\bar{\mathfrak{g}}, k)$ for $\langle C \rangle \neq 1$ and $k \nmid n_0$ | 136 |
