Contents

Preface vii

List of participants ix

On the curves of contact on surfaces in a projective space
M. BORATYNSKI 1

Plane sections of curves of low genus
LUCA CHIANTINI 9

A moving-lemma for a singular variety and applications to the Grothendieck group $K_0(X)$
CATERINA CONSANI 21

The K-cohomology of Enriques surfaces
KEVIN R. COOMBES 47

K-theory of Henselian local rings and Henselian pairs
OFER GABBER 59

On the homological π_0 of Kac-Moody groups over fields
JURGEN HURRELBRINK, JUN MORITA, AND ULF REHMANN 71

The decomposable part of motivic cohomology and bijectivity of the norm residue homomorphism
BRUNO KAHN 79

On the spectral sequence for relative K-theory
STEVEN E. LANDSBURG 89

G_0 of integral group rings for groups with cyclic Sylow subgroups
REINHARD C. LAUBENBACHER AND DAVID L. WEBB 97

Deligne-Beilinson cohomology for singular varieties
MARC LEVINE 113

A note on K_2 of the rings of integers of totally real number fields
MARCIN MAZUR AND JERZY URBANOWICZ 147

Intersection points of seminormal configurations of lines
LES REID AND LESLIE G. ROBERTS 151

Group representations and algebraic K-theory: II
CLAYTON C. SHERMAN 165

Remarks on the Stickelberger ideals of order 2
JERZY URBANOWICZ 179

Unstable K_1-theory of topological spaces is nilpotent
L. N. VASERSTEIN 193

Cohomology theories and algebraic cycles in singular varieties
LUCA BARBIERI VIALE 197

Localization for the K-theory of noncommutative rings
CHARLES WEIBEL AND DONGYUAN YAO 219
