

CONTENTS

Introduction.....	ix
On the stabilization of ill posed Cauchy problems in nonlinear elasticity..... L. E. PAYNE	1
A nonlinear eigenvalue problem with an exponential nonlinearity..... JAMES MOSELEY	11
Eigenvalue problems for variational inequalities..... ERICH MIERSEMANN	25
Regularity and symmetry properties of solutions of the John shell equations for a spherical shell..... GEORGE H. KNIGHTLY and D. SATHER	45
Repeated eigenvalues in mechanical optimization problems..... KYUNG K. CHOI and EDWARD J. HAUG	61
Effects of some nonlinear terms on the buckling of elastic bodies..... VADIM KOMKOV and EDWARD J. HAUG	87
Vibrations and stability of shallow elastic arches..... RAYMOND H. PLAUT	121
