

TABLE OF CONTENTS

Preface	ix
A page of mathematical autobiography SOLOMON LEFSCHETZ	1
Solomon Lefschetz SIR WILLIAM HODGE, F.R.S.	27
Multiplicity structures on space curves C. BANICA AND O. FORSTER	47
Algebraic cycles and the Beilinson conjectures SPENCER BLOCH	65
The infinitesimal Abel-Jacobi mapping for hypersurfaces HERBERT CLEMENS	81
Infinite Coxeter groups and automorphisms of algebraic surfaces I. DOLGACHEV	91
A problem about polynomial ideals SHALOM ELIAHOU	107
Local Torelli theorem for certain extremal varieties CARLOS GOMEZ-MONT AVALOS	121
Transverse deformations of holomorphic foliations XAVIER GOMEZ-MONT	127
Singularities of algebraic surfaces and characteristic numbers F. HIRZEBRUCH	141
Metrics on moduli spaces N.J. HITCHIN	157
Varieties with rational singularities GEORGE R. KEMPF	179
Remarks on moduli spaces of complete intersections A.S. LIBGOBER AND J.W. WOOD	183

The Schottky groups in higher dimensions MADHAV V. NORI	195
Cohomology on complex homogeneous manifolds with compact subvarieties C. PATTON AND H. ROSSI	199
Some applications of the Lefschetz fixed point theorems in (complex) algebraic geometry C.A.M. PETERS	213
Stability of two-dimensional local rings. II JAYANT SHAH	223
The connection between linear series on curves and Gauss maps on subvarieties of their Jacobians ROY SMITH AND HORACIO TAPIA-RECILLAS	225
Some applications of algebraic geometry to systems of partial differential equations and to approximation theory PETER F. STILLER	239
Small points and torsion points LUCIEN SZPIRO	251
Green's theory of Chern classes and the Riemann-Roch formula DOMINGO TOLEDO AND YUE LIN L. TONG	261
The following lectures do not appear in this volume:	
An overview of the Schottky problem E. ARBARELLO	
Fermi curves and monodromy D. GIESEKER	
Local isometric embeddings of Riemannian manifolds P. GRIFFITHS	
Some results on the equation $x^3 + y^3 = Az^3$ Z. RAMOS
