TABLE DES TITRES

M. HAZEWINKEL - Lectures on invariants, representations and Lie algebras in systems and control theory 1

T.A. SPRINGER - Séries de Poincaré dans la théorie des invariants 37

*

G. FALTINGS - On the cohomology of locally symmetric hermitian spaces 55

*

A. VAN DEN ESSEN - A study of the torsion-free part of the cokernel from the operator $\frac{\partial}{\partial x_n}$ acting on a $\mathcal{D}_n$-module 99

*

V. DLAB - The regular representations of the tame hereditary algebras 120

C.M. RINGEL - Separating tubular series 134

★

G.B. SELIGMAN - Higher even Clifford algebras 159

★

J. BARTIJN et J.R. STROOKER - Modifications monomiales 192

J. LESCOT - La série de Bass d'un produit fibré d'anneaux locaux 218

★

A. VERSCHOREN - Relative invariants for commutative rings 240

★

J. ALEV - Sur l'extension $R^G \subset R$ 267

M. CHAMARIE - Modules sur les anneaux de Krull non commutatifs 283

P. HILTON - Localization of crossed-modules 311

R. L. SNIDER - The division ring fractions of a group ring 325
