

## Table of Contents

Michael Kuhn, Roger Wattenhofer: Community-Aware Mobile Networking	1
Satish Narayana Srirama: Publishing and Discovery of Mobile Web Services in Peer to Peer Networks	15
Chunyang Yin, Noémie Simoni, Ghislain du Chéné: A personalization and mobility aware service enabler for a service continuity in heterogeneous networks	29
Joo-Sang Youn, Chul-Hee Kang: Effective Routing Scheme through Network Load-aware Route Metric in Multi-rate Wireless Mesh Networks	43
André Herms, Georg Lukas: Realism in Design and Evaluation of Wireless Routing Protocols	57
Arne Schmitz, Leif Kobbelt: Real-time Visualization of Wave Propagation	71
Mesut Günes, and Martin Wenig: On the Way to a More Realistic Simulation Environment for Mobile Ad-hoc Networks	81
Marcello Caleffi, Giancarlo Ferraiuolo, Luigi Paura: A Bayesian Location Estimation Technique for Mobile Ad Hoc Networks	97
Ulrich Norbisch, Christof Mosler: Tool Support for the eHome Specification, Configuration, and Deployment Process	109
