| 11. | Tobacco control as a model for trimming the obesity problem<br><i>David T. Levy and Marilyn Oblak</i>   | 191 |
| 12. | Perspectives on the economic and cultural effects of obesity litigation: lessons from <i>Pelman v McDonald's</i><br><i>José Felipé Anderson</i> | 206 |

## PART VI POLICY CONCLUSIONS

- |     |  |     |
|-----|--|-----|
| 13. | A policy framework for confronting obesity<br><i>Zoltan J. Acs, Lenneal J. Henderson, David T. Levy,<br/>Alan Lyles and Kenneth R. Stanton</i> | 221 |
|     | <i>Index</i>   | 253 |

# Figures

---

2.1	Americans are eating out more	18
2.2	Obesity in international perspective	19
6.1	Promotion (hot) versus prevention (cool) self-regulation of weight and eating	93
6.2	The weight–lifestyle segmentation framework	96
7.1	Increases in health insurance premiums compared to other indicators, 1988–2005	114
8.1	Predicted and observed obesity prevalence in the USA, 1960–2002	144
8.2	Projected obesity prevalence rates in the USA, 1960–2020	144
8.3	Ratio of obese to all overweight: obese/(preobese + obese)	145
8.4	State efforts to control obesity and state obesity report cards	148
8.5	State efforts to control childhood obesity and state childhood obesity report cards	149
8.6	Number of states proposing obesity control measures, by category	153
9.1	Generic commodity promotion (‘checkoff’) program revenues, 2003	160
9.2	The dairy board’s logo with the dairy weight-loss claim	167
10.1	Symmetry of a tax on the buyer and seller of good $X$	178
10.2	Optimal tax to reduce high-fat food consumption	180
13.1	Obesity trends among adults in the USA (BRFSS, 1991, 1996, 2004)	223
13.2	Simplified web of causation applied to obesity and cardiovascular disease	230
13.3	The life cycle concept	234

# Tables

---

2.1	Trends in obesity in selected countries	19
4.1	Disparities in prevalence of overweight among children in the USA	60
4.2	Prevalence of overweight and obesity in adults aged 20 and older in the USA	63
4.3	Combined percentage of children and teens considered overweight or at risk of being overweight in the USA	64
4.4	Key conceptual characteristics of diversity and obesity	67
4.5	Levels of strategy for obesity prevention and reduction in diverse and poor populations	73
6.1	Promotion (hot) versus prevention (cool) system of the self-regulation of weight and overeating	91
7.1	Estimates of underutilization of insured bariatric services, 2002	112
7.2	National health expenditures, USA 1970–2003: total, source of payment and percentage of gross domestic product (GDP)	116
7.3	Per capita growth in health care spending and GDP (1988–2004)	119
8.1	Caloric intake by meal and location	139
8.2	Prevalence of obesity and overweight among adults in the USA, aged 20–74 years	142
8.3	Total direct health care costs attributable to obesity and overweight in the USA	146
8.4	Legislative efforts to combat the ‘infrastructure of obesity’	151
13.1	A framework for obesity policies	244
