

# Table of Contents

Foreword	ix
Preface	xi
Some Conventions	xv
CHAPTER I. Complete Discrete Valuation Fields	1
§1. Ultrametric absolute values	1
§2. Valuations and valuation fields	3
§3. Discrete valuation fields	5
§4. Completion	7
§5. Filtrations of discrete valuation fields	10
§6. The group of principal units as a $\mathbb{Z}_p$ -module	14
§7. Set of multiplicative representatives	17
§8. The Witt ring	21
§9. Artin-Hasse maps	23
CHAPTER II. Extensions of Discrete Valuation Fields	29
§1. The Hensel Lemma and Henselian fields	29
§2. Extensions of valuation fields	32
§3. Unramified and ramified extensions	41
§4. Galois extensions	47
§5. Structure theorems for complete fields	51
CHAPTER III. The Norm Map	57
§1. Cyclic extensions of prime degree	57
§2. Artin-Schreier extensions	63
§3. The Hasse-Herbrand function	69
§4. The norm and ramification groups	76
§5. The field of norms	81

CHAPTER IV. Local Class Field Theory. I	93
§1. Complete discrete valuation fields with finite residue field	93
§2. The Neukirch map $\Upsilon_{L/F}$	99
§3. Functorial properties of $\Upsilon_{L/F}$	104
§4. The reciprocity map $\Psi_F$	109
§5. Pairings of the multiplicative group	113
§6. The Existence Theorem	123
§7. Hazewinkel's theory and Dwork's theorem	128
CHAPTER V. Local Class Field Theory. II	135
§1. The multiplicative group and abelian extensions	135
§2. Additive polynomials	143
§3. Normic subgroups	151
CHAPTER VI. The Group of Units in a $p$ -adic Field	161
§1. Formal power series	161
§2. The Artin-Hasse-Shafarevich map	167
§3. Series related to primitive roots	171
§4. Primary elements	178
§5. The Shafarevich decomposition	183
CHAPTER VII. Explicit Formulas for the Hilbert Norm Residue Symbol	187
§1. Origin of formulas	187
§2. The pairing $\langle \cdot, \cdot \rangle$	191
§3. Kummer's extensions of a $p$ -adic field	200
§4. Explicit formulas	204
§5. Applications and generalizations	207
CHAPTER VIII. Explicit Formulas for the Hilbert Pairing on Formal Groups	213
§1. Formal groups	213
§2. Generalized Hilbert pairing	217
CHAPTER IX. The Milnor $K$ -groups of a Local Field	223
§1. The Milnor ring of a field	223
§2. The Milnor ring of a discrete valuation field	226
§3. The norm map	232
§4. The Milnor ring of a local field	243
Appendices	255
Appendix A. Absolute Galois group of a local field	255
Appendix B. Multidimensional local fields	257
Bibliography	263
List of Notations	279
Subject Index	283
