Special Symbols and Terms	XVIII
Introduction to Volume II	1

Part V. Ring Theory*

Chapter 17. Modules of Finite Length and their Endomorphism Rings	9
Chapter 18. Semilocal Rings and the Jacobson Radical	27
Chapter 19. Quasinjective Modules and Selfinjective Rings	61
Chapter 20. Direct Sum Representations of Rings and Modules	109
Chapter 21. Azumaya Diagrams	142
Chapter 22. Projective Covers and Perfect Rings	151
Chapter 23. Morita Duality	177
Chapter 24. Quasi-Frobenius Rings	203
Chapter 25. Sigma Cyclic and Serial Rings	223
Chapter 26. Semiprimitive Rings, Semiprime Rings, and the Nil Radical	252
Bibliography	266
Register of Names	293
Index	297
