TABLE OF CONTENTS

CHAPTER I - GENERAL PROPERTIES OF INJECTIVE MODULES

1. Divisible Groups
2. Definition and Characterization of Injective Modules
3. The Existence of Injective Hull
4. Decomposition of Injective Modules
5. Endomorphism Ring of Injective Modules
6. The Heart of an A -module
7. Injective A -modules and flat A -modules
8. Injective Hull and Baer Module in the General Sense

CHAPTER II - INJECTIVE MODULES OVER VARIOUS RINGS

1. Divisible Modules and Injective Modules over Principal Ideal Domain
2. Injective Modules over a Dedekind Ring
3. Some Generalizations
4. Injective Modules Over a Prüfer Ring
5. Injective Modules over a Commutative Domain
6. Injective Modules over a Semi-Simple or Matrix Ring
7. Injective Modules over a Finite-dimensional Algebra
8. Injective Modules over an Artinian Ring or a Noetherian Ring
