

CONTENTS

INTRODUCTION	1
CHAPTER I. THE RING THEORETIC SCENERY	5
I.1. Localization of Rings and Modules	5
I.2. Special Kernel Functors	10
I.3. Construction of Certain (Pre) Sheaves of Rings and Modules	14
I.4. Fully Left Bounded Left Noetherian Classical Rings	21
I.5. Zariski Central Rings	25
CHAPTER II. REFLECTIONS ON REFLECTORS AND LOCALIZATION IN GROTHENDIECK CATEGORIES	37
II.1. Categorical Background	37
II.2. Localization in Grothendieck Categories	42
II.3. Giraud Subcategories of a Complete Grothendieck Category	51
II.4. Kernel Functors in Giraud Subcategories	55
II.5. The Main Example: Sheaves and Presheaves	65
II.6. Idempotent Filters	73
CHAPTER III. APPLICATION TO SHEAF THEORY	81
III.1 (Pre) Sheaves of Rings and Modules of Quotients: Generalities	81
III.2. Local Kernel Functors	83
III.3. Idempotent Filters	87
III.4. Ring Objects of Quotients	89
III.5. T-Functors in R-Ker	93
III.6. Pointwise Localization of Presheaves	99
III.7 Strictly Local Kernel Functors and Coherent Modules	119
CHAPTER IV. APPLICATIONS	133
IV.1. Kerneled Spaces	133
IV.2. Affine Schemes	137
IV.3. Schemes	149
APPENDIX ODDS AND ENDS	156
A.1. A Functor $p: \pi(R) \rightarrow \underline{\text{Ens}}$	156
A.2. Weakly Flabby Sheaves	156
