

Contents

Notation		
Part 1. The structure of near-rings		1
1. Introduction		3
2. Near-ring modules		30
3. Primitive near-rings		49
4. More on 2-primitive near-rings		68
5. The J radicals		84
6. Further radical theory		103
7. Semisimplicity		123
8. Miscellany		136
Part 2. Near-rings and groups		151
9. Distributively generated near-rings		153
10. General theory of endomorphism near-rings		176
11. Some endomorphism near-rings		198
12. Free groups and free d. g. near-rings		209
13. D. g. representations		226
14. The group d. g. near-ring		244
Appendix		259
