

## Contents

In Place of an Introduction	vii
Representations of Infinite-Dimensional Classical Groups, Limits of Enveloping Algebras, and Yangians G. I. OLSHANSKIĬ	1
On Semigroups Related to Infinite-Dimensional Groups G. I. OLSHANSKIĬ	67
Infinite-Dimensional Groups, Their Mantles, Trains, and Representations YU. A. NERETIN	103
On Finite-Dimensional Representations of the Lie Algebra $L = \mathfrak{sl}_2(\mathbf{R}) \cdot \mathbf{R}$ R. S. ISMAGILOV	173
Unitarizability of Some Enright-Varadarajan $u(p, q)$ -modules A. I. MOLEV	199
Lie Derivatives of Order $n$ on the Line. Tensor Meaning of the Gelfand-Dikiĭ Bracket O. D. OVSIENKO and V. YU. OVSIENKO	221
The Vocabulary of Geometry and Harmonic Analysis on the Infinite-Dimensional Manifold $\text{Diff}_+(S^1)/S^1$ D. V. YUR'EV	233
