Preface	iii
1/Notations, Conventions, and Some Properties of Representations	1
Semisimple Lie Algebras	1
Contragredient, Orthogonal, and Symplectic Representations	3
Congruence Classes of Representations	6
2/Indices of Representations	9
Definition and Properties of the Indices	10
The Table of Indices	12
Examples of Applications	13
3/Branching Rules	17
Semisimple Subalgebras of Semisimple Lie Algebras and Branching Rules	17
The Table of Branching Rules	18
Branching Rules for $A_2$	19
Generating Functions for Branching Rules	21
References	23
Table 1 Table of Dimensions, Second and Fourth Indices of Irreducible Representations	25
Table 2 Table of Branching Rules	85
