

PREFACE . . . . .	.iii
I. BASIC CONCEPTS . . . . .	1
1. Preliminaries . . . . .	1
2. Regular Quotient Rings . . . . .	12
3. Fractional Ideals . . . . .	24
4. Quotient Rings . . . . .	33
5. Some Fundamental Properties of Quotient Rings . . . . .	52
6. Cancellation Laws for Ideals . . . . .	60
7. Invertible Ideals . . . . .	67
8. Allerlei . . . . .	81
II. INTEGRAL DEPENDENCE . . . . .	83
9. Integral Elements . . . . .	83
10. Inherited Properties under Integral Extensions . . . . .	90
11. Prime Ideals and Integral Dependence . . . . .	102
12. Integral Extensions of Integral Domains . . . . .	113
13. Almost Integrity and Complete Integral Closure . . . . .	132
14. Allerlei . . . . .	149
III. VALUATION THEORY . . . . .	152
15. Partially Ordered Abelian Groups . . . . .	152
16. Groups of Divisibility, Valuations, and Generalizations	171
17. Structure of Valuation Rings . . . . .	187
18. Construction of Valuation Rings . . . . .	207
19. Valuation Overrings of an Integral Domain . . . . .	224
20. Extensions of Valuation Rings . . . . .	254
21. Allerlei . . . . .	272
IV. PRÜFER DOMAINS . . . . .	275
22. Structure of Prüfer Domains . . . . .	275
23. Ideal Theory in Prüfer Domains . . . . .	287
24. Prüfer Domains and Cancellation of Ideals . . . . .	297
25. Arithmetic Relations among Ideals of a Prüfer Domain . . . . .	307
26. Overrings of a Prüfer Domain I . . . . .	321
27. Overrings of a Prüfer Domain II . . . . .	334
28. Polynomials over a Prüfer Domain . . . . .	343
29. Allerlei . . . . .	351

V.	POLYNOMIAL RINGS . . . . .	.354
30.	Dimension Theory . . . . .	.354
31.	Hilbert Rings and Hilbert's Nullstellensatz . . . . .	.373
32.	*-Operations; Kronecker Function Rings . . . . .	.392
33.	The Ring $R(X)$ . . . . .	.410
34.	The $v$ -Operation on an Integral Domain . . . . .	.416
35.	Allerlei . . . . .	.432
VI.	DOMAINS OF CLASSICAL IDEAL THEORY . . . . .	.434
36.	Almost Dedekind Domains . . . . .	.434
37.	Dedekind Domains . . . . .	.442
38.	Additional Properties of Dedekind Domains . . . . .	.457
39.	General ZPI-Rings . . . . .	.469
40.	Overrings of a Dedekind Domain . . . . .	.477
41.	Integral Extensions of Dedekind Domains . . . . .	.495
42.	Algebraic Number Fields . . . . .	.509
43.	Domains of Finite Character; Krull Domains . . . . .	.523
44.	The $v$ -Operation on a Krull Domain . . . . .	.540
45.	Class Groups . . . . .	.558
46.	Prime Factorization of Principal Ideals . . . . .	.569
47.	Allerlei . . . . .	.580
	REFERENCES . . . . .	.586
	INDEX . . . . .	.603
