

## Contents

|   |     |
|---|-----|
| Preface   | ix  |
| Conference Details  | x   |
| List of Participants  | xi  |
| Two Step Descent in Modular Galois Theory, Theorems of Burnside and Cayley, and Hilbert's Thirteenth Problem<br>SHREERAM S. ABHYANKAR   | 1   |
| Generalized Taylor Formulae, Computations in Real Closed Valued Fields and Quantifier Elimination<br>MARI-EMI ALONSO and HENRI LOMBARDI | 33  |
| The Arithmetic–Arboreal Residue Structure of a Prüfer Domain, I<br>ŞERBAN A. BASARAB  | 59  |
| Left Valuation Rings, Left Cones, and a Question of Frege's<br>HANS-HEINRICH BRUNGS and GÜNTER TÖRNER                                   | 81  |
| Divisorial Valuations Dominating Rational Surface Singularities<br>VINCENT COSSART, OLIVIER PILTANT and<br>ANA J. REGUERA-LÓPEZ         | 89  |
| Valuations and Hermitian Forms on Skew Fields<br>THOMAS C. CRAVEN   | 103 |
| Resolution of Morphisms<br>STEVEN DALE CUTKOSKY   | 117 |
| Rigid Subanalytic Sets<br>T. S. GARDENER and HANS SCHOUTENS   | 141 |
| Dubrovin Valuation Rings and Orders in Central Simple Algebras<br>JOACHIM GRÄTER  | 151 |
| <b>Q</b> -adequate Bicyclic Bicubic Fields<br>HELEN G. GRUNDMAN and TARA L. SMITH   | 163 |

|  |     |
|--|-----|
| Valued Fields and Covers in Characteristic $p$<br>DAVID HARBATER and MARIUS VAN DER PUT,<br>with an appendix by R. GURALNICK | 175 |
| Line Bundles on Rigid Analytic Spaces<br>URS T. HARTL  | 205 |
| The Fixed-Point Theorems of Priess-Crampe and Ribenboim in<br>Logic Programming<br>PASCAL HITZLER and ANTHONY KAREL SEDA     | 219 |
| The Minimum Property of Krasner's Constant<br>SUDESH K. KHANDUJA   | 237 |
| About Merckel's Lemma<br>HENRI LOMBARDI  | 247 |
| Bounds for Representations of Polynomials Positive on<br>Compact Semi-Algebraic Sets<br>ALEXANDER PRESTEL                    | 253 |
| Model Theory of Real Closed Rings<br>ALEXANDER PRESTEL and NIELS SCHWARTZ  | 261 |
| History of Valuation Theory – Part I<br>PETER ROQUETTE   | 291 |
| A Density Property for PpC-fields<br>JOACHIM SCHMID  | 357 |
| Valuation Theory in Rigid Geometry and Curves over<br>Valuation Rings<br>MARIUS VAN DER PUT                                  | 369 |
| Valuation Theory on Finite Dimensional Division Algebras<br>A. R. WADSWORTH  | 385 |
