

Table of Contents

Introduction	V11
Chapter I. <u>Localization of Nilpotent Groups</u>	
Introduction	1
1. Localization theory of nilpotent groups	3
2. Properties of localization in N	19
3. Further properties of localization	23
4. Actions of a nilpotent group on an abelian group	34
5. Generalized Serre classes of groups	43
Chapter II. <u>Localization of Homotopy Types</u>	
Introduction	47
1. Localization of 1-connected CW-complexes	52
2. Nilpotent spaces	62
3. Localization of nilpotent complexes	72
4. Quasifinite nilpotent spaces	79
5. The main (pullback) theorem	82
6. Localizing H-spaces	90
7. Mixing of homotopy types	94
Chapter III. <u>Applications of Localization Theory</u>	
Introduction	101
1. Genus and H-spaces	104
2. Finite H-spaces, special results	122
3. Non-cancellation phenomena	133
Bibliography	147
Index	154
