

CONTENTS:

1.	Definition and elementary properties of general cohomology	page	2
2.	Comparison of cohomology theories	-	9
3.	Exact couples, spectral sequences	-	15
4.	Postnikov decomposition	-	23
5.	Multiplicative cohomology	-	29
6.	Cohomology of fibrations; Hirsch-Leray theorem: Thom isomorphism	-	34
7.	Cohomology of projective spaces and classifying spaces; Chern classes	-	44
8.	S-duality; Poincaré-duality	-	54
9.	Literature	-	60
