

# Contents

<b>Preface</b>	<b>vii</b>
<b>Introductory Guide</b>	<b>ix</b>
<b>Contents</b>	<b>x</b>
<b>1 Algebra</b>	<b>1</b>
1.1 Noetherian Rings . . . . .	1
1.2 Modules . . . . .	6
1.3 Local Rings and Localization . . . . .	17
1.4 Primary Decomposition . . . . .	23
1.5 Finite and Integral Extensions . . . . .	34
<b>2 Affine Algebraic Geometry</b>	<b>47</b>
2.1 Affine Hypersurfaces . . . . .	48
2.2 Affine Varieties . . . . .	56
2.3 Maps between Algebraic Sets . . . . .	67
<b>3 Basics of Analytic Geometry</b>	<b>74</b>
3.1 Holomorphic Functions of Several Complex Variables . . . . .	76
3.2 Weierstraß Division and Preparation Theorem . . . . .	87
3.3 Applications . . . . .	95
3.4 Germs of Analytic Spaces . . . . .	108
<b>4 Further Development of Analytic Geometry</b>	<b>126</b>
4.1 Dimension Theory . . . . .	128
4.2 Hilbert-Samuel Function and Multiplicity . . . . .	138
4.3 Regular Local Rings and the Jacobian Criterion . . . . .	150
4.4 Normalization . . . . .	161
<b>5 Plane Curve Singularities</b>	<b>171</b>
5.1 Puiseux Expansion . . . . .	173
5.2 Invariants . . . . .	185
5.3 Resolutions of Irreducible Plane Curve Singularities . . . . .	199
5.4 Reducible Plane Curve Singularities . . . . .	215
<b>6 The Principle of Conservation of Number</b>	<b>225</b>
6.1 Sheaves . . . . .	226
6.2 Fundamental Properties of Coherent Sheaves . . . . .	236
6.3 The Four Basic Coherence Theorems . . . . .	244
6.4 The Principle of Conservation of Number . . . . .	250
6.5 Cohen-Macaulay Spaces . . . . .	259

<b>7</b>	<b>Standard Bases</b>	<b>275</b>
7.1	The Division Theorem . . . . .	276
7.2	Characterizations and Properties of Standard Bases . . . . .	283
7.3	Applications . . . . .	290
<b>8</b>	<b>Approximation Theorems</b>	<b>295</b>
8.1	Artin's Approximation Theorem . . . . .	295
8.2	Grauert's Approximation Theorem . . . . .	299
8.3	Some other Approximation Theorems . . . . .	308
<b>9</b>	<b>Classification of Simple Hypersurface Singularities</b>	<b>311</b>
9.1	Finite Determinacy of Hypersurface Singularities . . . . .	312
9.2	The <i>A-D-E</i> -singularities are simple. . . . .	322
9.3	Orbits . . . . .	331
<b>10</b>	<b>Deformations of Singularities</b>	<b>339</b>
10.1	Deformations of Hypersurface Singularities . . . . .	340
10.2	Deformations of Singularities . . . . .	345
10.3	Existence of a Semi-Universal Deformation . . . . .	358
	<b>Bibliography</b>	<b>374</b>
	<b>Index</b>	<b>376</b>
