PREFACE	VII
TRANSLATOR'S PREFACE	IX
0 BASIC TERMINOLOGY	1
1 INITIAL CONCEPTS AND PROPERTIES	5
1-1 The Concept of Partial Operation . . . . .	5
1-2 Partial Groupoids and Their Isomorphisms . . . . .	8
1-3 Multiplication of Subsets . . . . .	10
1-4 Generation . . . . .	13
1-5 Weak Associativity . . . . .	16
1-6 Extension of An Operation . . . . .	23
2 HOMOMORPHISMS	29
2-1 Mappings Preserving Operations . . . . .	29
2-2 Weak Homomorphisms . . . . .	33
2-3 Special Types of Homomorphisms . . . . .	36
2-4 Factor Partial Groupoids . . . . .	43
2-5 Replicas of Partial Groupoids . . . . .	50
2-6 Pargoid Replicas in Varieties of Total Groupoids . . . . .	57
2-7 Extensions of Homomorphisms in Total Groupoids . . . . .	64
3 DIVISIBILITY RELATIONS	69
3-1 Elementary Properties of Divisibility . . . . .	69
3-2 Associative Elements with Maximum Divisibility . . . . .	71
3-3 Ideals . . . . .	75
3-4 Active Ideals . . . . .	79
3-5 Long Divisibility . . . . .	81
3-6 Ideal Chains . . . . .	84
4 INTERMEDIATE ASSOCIATIVITY	89
4-1 The Concept of Intermediate Associativity . . . . .	89
4-2 Dividing of Conditions of Intermediate Associativity . . . . .	91
4-3 Partial Groupoids of Words with Synonyms . . . . .	96

4.4	The Closure of the Classes of Semigroups and Groups with Respect to the Operations of Restriction and Strong Homomorphism . . .	99
5	SEMIGROUP EXTENSIONS OF PARTIAL OPERATIONS	103
5.1	Extensions of Partial Groupoids to Total Groupoids from Some Varieties . . . . .	103
5.2	Independent Semigroup Extensions . . . . .	110
5.3	Ideal Layers of Semigroups as Partial Groupoids . . . . .	125
5.4	Commutative Contraction . . . . .	131
5.5	The Algorithmic Problem of the Extendability of Partial Operations	137
6	PARTIAL GROUPOIDS OF TRANSFORMATIONS	143
6.1	Transformations and Their Fixed Points . . . . .	143
6.2	The Abstract Characteristic of a Class of Partial Groupoids of Transformations Complete with Respect to Constant Transformations . . . . .	148
6.3	Partial Groupoids of Closure Transformations . . . . .	155
6.4	Similarity of Partial Groupoids of Transformations . . . . .	160
6.5	Inner Semigroup Extensions . . . . .	163
6.6	Partial Groupoids of Partial Transformations . . . . .	168
7	FACTORISATION OF PARTIAL GROUPOIDS	175
7.1	Disjoint Factorisation . . . . .	175
7.2	Inflation . . . . .	177
7.3	Annihilating Factorisation . . . . .	179
7.4	Cartesian Factorisation . . . . .	186
7.5	Sub-Cartesian Factorisation . . . . .	190
7.6	Amalgams of Partial Groupoids . . . . .	196
7.7	Semigroup Amalgams . . . . .	200
7.8	Inner Extension of Certain Semigroup Amalgams . . . . .	207
