

## CONTENTS

Preface . . . . .	5
Contents . . . . .	8
Introduction . . . . .	11

### PART ONE

#### CHAPTER

1 Recursive Isomorphism . . . . .	21
2 Addition . . . . .	29
3 Quords . . . . .	41
4 The Orderings . . . . .	46
5 Co-ordinals. . . . .	52
6 Multiplication . . . . .	60
7 Exponentiation . . . . .	75
8 Arithmetic Laws and Principal Numbers . . . . .	92
9 Cantor Normal Form. . . . .	110
10 Uniqueness Results . . . . .	122
11 E-numbers . . . . .	131
12 Infinite Series . . . . .	142

### PART TWO

13 Isols. . . . .	159
14 Quasi-finiteness . . . . .	167

15	Losols . . . . .	175
16	Arithmetic Laws for Losols . . . . .	182

## APPENDICES

A	A Mixed Cancellation Theorem by P. H. G. Aczel & J. N. Crossley . . . . .	194
B	Infinite Products and Principal Numbers for Multiplication by A. G. Hamilton . . . . .	203
	Notation and Terminology . . . . .	211
	References . . . . .	215
	Notes . . . . .	217
	Index of Symbols . . . . .	220
	Index of Terms . . . . .	223
