

CONTENTS

<i>Introduction</i>	pag.	7
<i>Basic notations</i>	»	11
CHAPTER 1: <i>On the Sylow theory of locally finite groups</i>	»	13
1.1. Theorem of Mal'čev and its inferences	»	13
Appendix A	»	15
Bibliography	»	19
1.2. Sylow subgroups of locally finite groups	»	19
Appendix B	»	32
Bibliography	»	36
CHAPTER 2: <i>Reduction theorems and theorems of Zassenhaus type for infinite groups</i>	»	37
2.1. Theorem of Dixon	»	37
2.2. The Schur-Zassenhaus's theorem for infinite groups	»	44
Appendix	»	51
2.3. The reduction theorem	»	52
2.4. Splitting conditions for completely decomposable abelian groups	»	57
Bibliography	»	61
CHAPTER 3: <i>Infinite Frobenius groups</i>	»	62
3.1. Definitions and recalls	»	62
3.2. Characterization of locally finite Frobenius groups	»	63
Bibliography	»	69
