<b>Preface .....</b>	<b>viii</b>
<b>Introduction .....</b>	<b>ix</b>
<b>Chapter 1. Preliminaries .....</b>	<b>1</b>
§ 1.1. Groups .....	1
§ 1.2. Rings and modules .....	13
§ 1.3. Algebraic systems, varieties and free objects .....	17
Exercises 1 .....	24
<b>Chapter 2. Automorphisms and their fixed points .....</b>	<b>26</b>
§ 2.1. Semidirect products .....	26
§ 2.2. Automorphisms as linear transformations .....	29
§ 2.3. Induced automorphisms of factor-groups .....	32
Exercises 2 .....	34
<b>Chapter 3. Nilpotent and soluble groups .....</b>	<b>36</b>
§ 3.1. The lower central series .....	36
§ 3.2. Nilpotent groups .....	38
§ 3.3. Soluble groups and varieties .....	42
§ 3.4. Nilpotency criteria for soluble groups .....	46
Exercises 3 .....	48
<b>Chapter 4. Finite <math>p</math>-groups .....</b>	<b>51</b>
§ 4.1. Basic properties .....	51
§ 4.2. A theorem of P. Hall .....	54
Exercises 4 .....	56
<b>Chapter 5. Lie rings .....</b>	<b>57</b>
§ 5.1. Definitions and basic properties .....	57
§ 5.2. Nilpotent and soluble Lie rings .....	62
§ 5.3. Free Lie rings .....	66
Exercises 5 .....	71

<b>Chapter 6. Associated Lie rings .....</b>	<b>74</b>
§ 6.1. Definition .....	74
§ 6.2. Basic properties .....	77
§ 6.3. Some applications .....	79
Exercises 6 .....	81
<b>Chapter 7. Regular automorphisms of Lie rings .....</b>	<b>83</b>
§ 7.1. Graded Lie rings .....	83
§ 7.2. Combinatorial consequences .....	88
§ 7.3. Regular automorphisms .....	90
Exercises 7 .....	93
<b>Chapter 8. Almost regular automorphism of order <math>p</math>: almost nilpotency of <math>p</math>-bounded class .....</b>	<b>95</b>
Exercises 8 .....	99
<b>Chapter 9. The Baker–Hausdorff Formula and nilpotent <math>\mathbb{Q}</math>-powered groups .....</b>	<b>101</b>
§ 9.1. Free nilpotent groups .....	101
§ 9.2. The Baker–Hausdorff Formula .....	104
§ 9.3. Nilpotent $\mathbb{Q}$ -powered groups .....	109
Exercises 9 .....	112
<b>Chapter 10. The correspondences of A. I. Mal'cev and M. Lazard .....</b>	<b>113</b>
§ 10.1. The Mal'cev Correspondence .....	113
§ 10.2. The Lazard Correspondence .....	121
Exercises 10 .....	128
<b>Chapter 11. Powerful <math>p</math>-groups .....</b>	<b>130</b>
§ 11.1. Definitions and basic properties .....	130
§ 11.2. Finite $p$ -groups of bounded rank .....	135
Exercises 11 .....	138
<b>Chapter 12. Almost regular automorphism of order <math>p^n</math>: almost solubility of <math>p^n</math>-bounded derived length ..</b>	<b>140</b>
§ 12.1. Uniformly powerful case .....	140
§ 12.2. Application of the Mal'cev Correspondence .....	143
§ 12.3. Almost solubility of $p^n$ -bounded derived length ..	146
Exercises 12 .....	150

<b>Chapter 13. <math>p</math>-Automorphisms with <math>p</math> fixed points .....</b>	<b>151</b>
§ 13.1. Abelian $p$ -groups .....	152
§ 13.2. Reduction to Lie rings .....	155
§ 13.3. The Lie ring theorem .....	160
Exercises 13 .....	165
<b>Chapter 14. Automorphism of order <math>p</math> with <math>p^m</math> fixed points: almost nilpotency of <math>m</math>-bounded class .....</b>	<b>166</b>
§ 14.1. Almost solubility of $m$ -bounded derived length .....	167
§ 14.2. Almost nilpotency of $m$ -bounded class .....	180
Exercises 14 .....	189
<b>Bibliography .....</b>	<b>190</b>
<b>Index of names .....</b>	<b>198</b>
<b>Subject Index .....</b>	<b>199</b>
<b>List of symbols .....</b>	<b>203</b>
