<b>Preface to the English Edition</b>	<b>v</b>
<b>Preface to the Original Edition</b>	<b>vii</b>
<b>Chapter 1 Introduction</b>	<b>1</b>
§1.1 Transformation and Invariance	1
§1.2 Poincaré Group and Free Particles	4
<b>Chapter 2 Lorentz Group</b>	<b>8</b>
§2.1 Double-valued Representations	8
§2.2 Spinor Representations	14
§2.3 Infinitesimal Transformations	20
<b>Chapter 3 Irreducible Representations of the Poincaré Group</b>	<b>26</b>
§3.1 Translational Transformations	26
§3.2 Lorentz Transformations	31
§3.3 Little Groups	33
§3.4 Irreducible Representations	36
<b>Chapter 4 Unitary Representations of Little Groups</b>	<b>39</b>
§4.1 Rotation Group	39
§4.2 Two-Dimensional Euclidean Group	41
§4.3 Lorentz Group	47

§4.4	Three-Dimensional Lorentz Group	52
§4.5	Classifications of Free Particles	57
<b>Chapter 5</b>	<b>Wigner Rotations</b>	<b>59</b>
§5.1	Particles with Finite Mass	59
§5.2	Particles with Zero Mass	64
§5.3	Particles with Imaginary Mass	70
§5.4	Angular Momenta of Massless Particles	72
<b>Chapter 6</b>	<b>Covariant Formalism I — Massive Particles</b>	<b>81</b>
§6.1	Particles with Spin 0	82
§6.2	Dirac Particles	85
§6.3	Particles with Higher Spin	91
§6.4	Generalized Bargmann-Wigner Equations	97
§6.5	$\gamma$ Matrices	106
§6.6	Discrete Transformations	112
	(a) Space Reflection	113
	(b) Time Reversal	114
	(c) Charge Conjugation	117
§6.7	Other Covariant Formalisms	118
	(a) Spin 1 Particle	119
	(b) Spin $\frac{3}{2}$ Particle	121
	(c) Generalization	124
<b>Chapter 7</b>	<b>Covariant Formalism II — Massless Particles</b>	<b>135</b>
§7.1	Particles with Discrete Spin	135
§7.2	Discrete Transformations	143
§7.3	Covariant Inner Products	148
	(a) Spin 1 Particle	148
	(b) Spin $\frac{3}{2}$ Particle and Others	151
§7.4	Particles with Continuous Spin	156
	(a) Particles in a Single-Valued Representation	156
	(b) Particles in a Double-Valued Representation	166
<b>Chapter 8</b>	<b>Quantized Fields</b>	<b>170</b>
§8.1	Quantum Theory of Matter Waves	170
§8.2	Harmonic Oscillators	176
§8.3	Scalar Fields	184

	<i>Contents</i>	xiii
§8.4	Spin and Statistics	191
§8.5	Poincaré Group and Free Fields	199
	<b>References and Bibliography</b>	<b>209</b>
	<b>Index</b>	<b>211</b>
