

## CONTENTS

|   |     |
|---|-----|
| <b>Preface</b>  | vii |
| <b>List of contributors</b>   | xiv |
| <b>1. Metagonal groups of finite and infinite dimension</b><br><i>A. M. Vershik</i>   | 1   |
| <b>2. The Grothendieck group of infinite symmetric group and symmetric functions (with the elements of the theory of <math>K_0</math>-functor of AF-algebras)</b><br><i>A. M. Vershik and S. V. Kerov</i> | 39  |
| <b>3. Principal representations of the group <math>U(\infty)</math>.</b><br><i>I. M. Gel'fand and M. I. Graev</i>   | 119 |
| <b>4. An introduction to the theory of <math>S</math>-algebras over reductive Lie algebras</b><br><i>D. P. Zhelobenko</i>   | 155 |
| <b>5. Representations of certain infinite-dimensional groups</b><br><i>R. S. Ismagilov</i>  | 223 |
| <b>6. Almost invariant structures and related representations of the diffeomorphism group of a circle</b><br><i>Yu. A. Neretin</i>  | 245 |
| <b>7. Unitary representations of infinite-dimensional pairs <math>(G, K)</math> and the formalism of R. Howe</b><br><i>G. I. Ol'shanskii</i>  | 269 |
| <b>8. Representations of the Virasoro algebra</b><br><i>B. L. Feigin and D. B. Fuchs</i>  | 465 |
| <b>Index</b>  | 555 |
