

CONTENTS

PREFACE	vii
CHAPTER I. INTRODUCTION	
1. The symmetric group	1
2. Wreath products	8
3. Multiple transitivity	12
4. Normal subgroups	19
5. Automorphism groups	26
6. Subnormal subgroups	40
7. Groups of prime degree	51
8. Frobenius groups	56
CHAPTER II. MACHINERY	
9. Nilpotent groups	65
10. Group extensions	78
11. Solvable groups	88
12. Transfer theorems	96
13. Normal p -complements	107
14. The Thompson subgroup	124
15. Group representations	143
16. Group characters	164
CHAPTER III. CLASSIFICATION THEOREMS	
17. Frobenius kernels	179
18. Frobenius complements	193
19. Solvable doubly transitive groups	228
20. Sharp transitivity	255
21. The Mathieu groups	279
