| Preface   | vii      |
| <b>1 INTRODUCTION AND ELEMENTARY LOGIC</b>              | <b>1</b> |
| <b>1.1</b> <i>Historical Remarks</i>                    | 1        |
| <b>1.2</b> <i>The Role of Set Theory in Mathematics</i> | 3        |
| <b>1.3</b> <i>Logical Statements</i>                    | 5        |
| <b>1.4</b> <i>Tautologies</i>                           | 11       |
| <b>1.5</b> <i>Inference and Proof</i>                   | 13       |
| <b>1.6</b> <i>Informal Proof</i>                        | 19       |
| <b>1.7</b> <i>Existential and Universal Quantifiers</i> | 21       |
| <b>1.8</b> <i>Mathematical Induction</i>                | 29       |

|  |           |
|--|-----------|
| <b>2 SETS AND THEIR PROPERTIES</b>               | <b>31</b> |
| <b>2.1</b> <i>The Undefined Terms and Axioms</i> | 31        |
| <b>2.2</b> <i>Subset and Related Terms</i>       | 35        |
| <b>2.3</b> <i>Complementary Sets</i>             | 40        |
| <b>2.4</b> <i>Set Union and Intersection</i>     | 42        |
| <b>2.5</b> <i>Venn Diagrams</i>                  | 46        |
| <b>2.6</b> <i>Theorems on Sets</i>               | 50        |
| <br>   |           |
| <b>3 RELATIONS AND FUNCTIONS</b>                 | <b>57</b> |
| <b>3.1</b> <i>Introduction</i>                   | 57        |
| <b>3.2</b> <i>Ordered Pairs</i>                  | 57        |
| <b>3.3</b> <i>Cartesian Product Sets</i>         | 59        |
| <b>3.4</b> <i>Relations</i>                      | 61        |
| <b>3.5</b> <i>Partitions</i>                     | 67        |
| <b>3.6</b> <i>Functions</i>                      | 71        |
| <b>3.7</b> <i>Types of Functions</i>             | 74        |
| <b>3.8</b> <i>Composition of Functions</i>       | 79        |
| <b>3.9</b> <i>Restrictions of Functions</i>      | 82        |
| <b>3.10</b> <i>Image Functions</i>               | 83        |
| <br>   |           |
| <b>4 BOOLEAN ALGEBRA</b>                         | <b>87</b> |
| <b>4.1</b> <i>Binary Operations</i>              | 87        |
| <b>4.2</b> <i>Boolean Algebra</i>                | 88        |
| <b>4.3</b> <i>Special Boolean Algebras</i>       | 93        |
| <b>4.4</b> <i>Algebraic Rings</i>                | 96        |

|          |  |            |
|----------|--|------------|
| <b>5</b> | <b>FINITE AND INFINITE SETS</b>                        | <b>101</b> |
| 5.1      | <i>Introduction</i>                                    | 101        |
| 5.2      | <i>Equivalence of Sets</i>                             | 102        |
| 5.3      | <i>Infinite Sets</i>                                   | 105        |
| 5.4      | <i>Denumerable Sets</i>                                | 108        |
| 5.5      | <i>Examples of Denumerable Sets</i>                    | 115        |
| 5.6      | <i>Non-Denumerable Sets</i>                            | 120        |
| <br>     |  |            |
| <b>6</b> | <b>CARDINAL NUMBERS</b>                                | <b>127</b> |
| 6.1      | <i>General Remarks</i>                                 | 127        |
| 6.2      | <i>Cardinal Number of a Set</i>                        | 128        |
| 6.3      | <i>Ordering Cardinal Numbers</i>                       | 130        |
| 6.4      | <i>Addition and Multiplication of Cardinal Numbers</i> | 136        |
| 6.5      | <i>Powers of Cardinal Numbers</i>                      | 140        |
| <br>     |  |            |
| <b>7</b> | <b>ORDERING RELATIONS</b>                              | <b>147</b> |
| 7.1      | <i>Introduction</i>                                    | 147        |
| 7.2      | <i>Relations in a Set</i>                              | 147        |
| 7.3      | <i>Order and Congruence in Boolean Algebras</i>        | 152        |
| 7.4      | <i>Similarity and Well-Ordered Sets</i>                | 155        |
| 7.5      | <i>Ordinal Numbers</i>                                 | 159        |
| <br>     |  |            |
| <b>8</b> | <b>CONCLUSION</b>                                      | <b>165</b> |
| 8.1      | <i>General Remarks</i>                                 | 165        |
| 8.2      | <i>Axiom of Choice</i>                                 | 166        |
| 8.3      | <i>The Russell Paradox</i>                             | 168        |

|                      |     |
|----------------------|-----|
| Appendix A           | 171 |
| Appendix B           | 173 |
| Glossary of Symbols  | 175 |
| Bibliography         | 179 |
| Answers to Exercises | 181 |
| Index                | 195 |
