

# CONTENTS

|  |      |
|--|------|
| Preface  | v    |
| Contents   | ix   |
| Paul Bernays—a short biography                                 | xi   |
| Kurze Biographie   | xiv  |
| List of publications   | xvii |
| <i>Paul Bernays</i>  |      |
| A system of axiomatic set theory                               | 1    |
| <i>Paul Bernays</i>  |      |
| On the problem of schemata of infinity in axiomatic set theory | 121  |
| <i>Azriel Lévy</i>   |      |
| The role of classes in set theory                              | 173  |
| <i>Ulrich Felgner</i>  |      |
| Choice functions of sets and classes                           | 217  |
| <i>Timothy B. Flannagan</i>                                    |      |
| A new finitary proof of a theorem of Mostowski                 | 257  |
| <i>Klaus Gloede</i>  |      |
| Reflection principles and indescribability                     | 277  |
| <i>Andrzej Mostowski</i>                                       |      |
| A remark on models of the Gödel–Bernays axioms for set theory  | 325  |
| Bibliography   | 341  |
| Index  | 353  |
