

## CONTENTS

|  |     |
|--|-----|
| Preface  | vi  |
| Combinatorics and Ramanujan's "Lost" Notebook<br>G.E. ANDREWS                          | 1   |
| Irregularities of distribution and combinatorics<br>J. BECK                            | 25  |
| Adaptive algorithms for communications<br>H.J. BEKER                                   | 47  |
| Random flows: network flows and electrical flows through random media<br>G.R. GRIMMETT | 59  |
| On greedy algorithms that succeed<br>A.J. HOFFMAN                                      | 97  |
| $\{0,1\}^*$ distance problems in combinatorics<br>J.H. VAN LINT                        | 113 |
| Detachments of graphs and generalised Euler trails<br>C. ST. J.A. NASH-WILLIAMS        | 137 |
| Graph minors - a survey<br>N. ROBERTSON and P.D. SEYMOUR                               | 153 |
| Index of names   | 172 |
