

CONTENTS

Preface

Barlotti, A. Finite geometries and designs	1
Cameron, P.J. Portrait of a typical sum-free set	13
Chvátal, V. Perfect graphs	43
Erdős, P. My joint work with Richard Rado	53
Frankl, P. The shifting technique in extremal set theory	81
Graham, R.L. & Rödl, V. Numbers in Ramsey theory	111
Milner, E.C. & Prikry, K. Almost disjoint sets	155
Thomason, A. Random graphs, strongly regular graphs and pseudo-random graphs	173
Winkler, P. The metric structure of graphs: theory and applications	197
Index of names	223
