

TABLE OF CONTENTS

PREFACE

CHAPTER I: PRELIMINARIES

1. Symmetric Closed Monoidal Categories	1
2. Uniform Spaces	5
3. Uniform Space Objects	9
4. *-Autonomous Categories	13

CHAPTER II: EXTENSIONS OF STRUCTURE

1. The Setting	19
2. Extension of the Duality	21
3. Extension of the Internal Hom	25

CHAPTER III: THE CATEGORY \underline{G} .

1. Completeness	33
2. Definition and Elementary Properties of \underline{G}	37
3. The Closed Monoidal Structure on \underline{G}	41
4. Summary of the Hypotheses	42

CHAPTER IV: EXAMPLES

1. Vector Spaces	43
2. Dualizing Modules	49
3. Banach Spaces	52
4. Modules over a Hopf Algebra	59
5. Topological Abelian Groups	65
6. Semilattices	96
